Gen	eral Instructions: -
1	You are aware that evaluation is the most important process in the actual and correct assessment of the candidates. A small mistake in evaluation may lead to serious problems which may affect the future of the candidates, education system and teaching profession. To avoid mistakes, it is requested that before starting evaluation, you must read and understand the spot evaluation guidelines carefully.
2	"Evaluation policy is a confidential policy as it is related to the confidentiality of the examinations conducted, Evaluation done and several other aspects. Its' leakage to public in any manner could lead to derailment of the examination system and affect the life and future of millions of candidates. Sharing this policy/document to anyone, publishing in any magazine and printing in News Paper/Website etc may invite action under various rules of the Board and IPC."
3	Evaluation is to be done as per instructions provided in the Marking Scheme. It should not be done according to one's own interpretation or any other consideration. Marking Scheme should be strictly adhered to and religiously followed. However, while evaluating, answers which are based on latest information or knowledge and/or are innovative, they may be assessed for their correctness otherwise and due marks be awarded to them. In class-XII, while evaluating competency-based questions, please try to understand given answer and even if reply is not from marking scheme but correct competency is enumerated by the candidate, due marks should be awarded.
4	The Marking scheme carries only suggested value points for the answers
	These are in the nature of Guidelines only and do not constitute the complete answer. The students can have their own expression and if the expression is correct, the due marks should be awarded accordingly.
5	The Head-Examiner must go through the first five answer books evaluated by each evaluator on the first day, to ensure that evaluation has been carried out as per the instructions given in the Marking Scheme. If there is any variation, the same should be zero after delibration and discussion. The remaining answer books meant for evaluation shall be given only after ensuring that there is no significant variation in the marking of individual evaluators.
6	Evaluators will mark($$) wherever answer is correct. For wrong answer CROSS 'X" be marked. Evaluators will not put right (\checkmark) while evaluating which gives an impression that answer is correct and no marks are awarded. This is most common mistake which evaluators are committing.
7	If a question has parts, please award marks on the right-hand side for each part. Marks awarded for different parts of the question should then be totaled up and written in the left-hand margin and encircled. This may be followed strictly.

8	If a question does not have any parts, marks must be awarded in the left-hand margin and encircled. This may also be followed strictly.
9	If a student has attempted an extra question, answer of the question deserving more marks should be retained and the other answer scored out with a note "Extra Question" .
10	No marks to be deducted for the cumulative effect of an error. It should be penalized only once.
11	A full scale of marks 80 (example 0 to 80/70/60/50/40/30 marks as given in Question Paper) has to be used. Please do not hesitate to award full marks if the answer deserves it.
12	Every examiner has to necessarily do evaluation work for full working hours i.e., 8 hours every day and evaluate 20 answer books per day in main subjects and 25 answer books per day in other subjects (Details are given in Spot Guidelines).
13	Ensure that you do not make the following common types of errors committed by the Examiner in the past:-
	 Leaving answer or part thereof unassessed in an answer book. Giving more marks for an answer than assigned to it. Wrong totaling of marks awarded on an answer. Wrong transfer of marks from the inside pages of the answer book to the title page. Wrong question wise totaling on the title page. Wrong totaling of marks of the two columns on the title page. Wrong grand total. Marks in words and figures not tallying/not same. Wrong transfer of marks from the answer book to online award list. Answers marked as correct, but marks not awarded. (Ensure that the right tick mark is correctly and clearly indicated. It should merely be a line. Same is with the X for incorrect answer.) Half or a part of answer marked correct and the rest as wrong, but no marks awarded.
14	While evaluating the answer books if the answer is found to be totally incorrect, it should be marked as cross (X) and awarded zero (0)Marks.
15	Any un assessed portion, non-carrying over of marks to the title page, or totaling error detected by the candidate shall damage the prestige of all the personnel engaged in the evaluation work as also of the Board. Hence, in order to uphold the prestige of all concerned, it is again reiterated that the instructions be followed meticulously and judiciously.
16	The Examiners should acquaint themselves with the guidelines given in the " Guidelines for spot Evaluation " before starting the actual evaluation.
17	Every Examiner shall also ensure that all the answers are evaluated, marks carried over to the title page, correctly totaled and written in figures and words.
18	The candidates are entitled to obtain photocopy of the Answer Book on request on payment of the prescribed processing fee. All Examiners/Additional Head Examiners/Head Examiners are once again reminded that they must ensure that evaluation is carried out strictly as per value points for each answer as given in the Marking Scheme.

	Being the supreme authority of the banking system, it acts as the financier of last recourse to the commercial banks. It forwards short-term credit to the commercial banks against approved securities. The RBI supervises, regulates and controls the commercial banks. The regulation of banks may be related to their licensing, branch expansion, liquidity of assets, management, amalgamation and liquidation. (To be marked as a whole)	4
14.	Suppose, the Indian Government decides to boost public investments with a defence project of ₹ 40,000 crore. Explain the likely impacts of the given situation on the Income, Employment and Output of the economy, assuming all other factors constant. Ans. Assuming all other factors constant, any increase in investments generally leads to multiple increase in final income which in turn leads to increase in employment. If the Indian government decides to infuse additional investment of ₹ 40,000 crore in the defence project, it would lead to increase in demand for goods and services leading to rise in output and employment, and consequent increase in income. (To be marked as a whole)	4
15. (a)	Suppose an economy is in equilibrium. From the following data, calculate Investment Expenditure in the economy: (i) National Income = ₹ 20,000 crore (ii) Marginal Propensity to Consume (MPC) = 0.8 (iii) Autonomous Consumption ( $\bar{c}$ ) = ₹ 100 crore Ans. Given, Y = ₹ 20,000 crore Marginal Propensity to Consume (MPC) = 0.8 Autonomous Consumption = ₹ 100 crore At equilibrium level of income, Y = C + I Y = $\bar{c}$ + (MPC)Y + I 20,000 = 100 + (0.8) x 20,000 + I Investment Expenditure (I) = ₹ 3,900 crore	$     \begin{array}{c}       1 \\       1 \\       \frac{1^{1/2}}{1/2} \\       \frac{1}{4}     \end{array} $
(b)	OR "With the objective to correct deflation, Reserve Bank of India may decrease the Reverse Repo Rate." Discuss the rationale behind the step taken by the Reserve Bank of India (RBI). Ans. To correct the situation of deflation, the Reserve Bank of India (RBI) may decrease the reverse repo rate, which may discourage the commercial banks from parking surplus funds with the Central Bank which in turn may increase the lending capacity of the commercial banks, leading to rise in money supply in the economy. As a result, Aggregate Demand in the economy may increase, consequently correcting the situation of deflation in the economy. (To be marked as a whole)	4

<b>(b)</b>	"In the past few decades, Indian economy has been fairly benefitted by positive externalities	
	created by rapid rise in infrastructure."	
	Justify the given statement with valid arguments.	
	Ans. In the past few decades, Indian economy has experienced a rapid rise in infrastructure. Infrastructural development is a core element in promoting economic	
	growth and attracting foreign investment for sustainable production and productivity.	3
	The benefits of infrastructural development may be enjoyed by the people without paying	U
	for the same. Hence, such infrastructural development adds to the welfare in an economy	
	and creates positive externalities.

17.	State the meaning and formula of Primary deficit.	
(a)	Ans. Primary deficit refers to the difference between fiscal deficit and interest payments.	1
(i)	Primary Deficit = Fiscal Deficit – Interest Payments	1
( <b>ii</b> )	'Government Budget can be a useful instrument in reducing inequalities in the distribution of	
	income and wealth in an economy.'	
	Do you agree with the given statement? Present valid arguments in favour of your answer.	
	Ans. Yes. The government budget objective of 'Redistribution of Income' aims to bring	
	about equality in the distribution of income. Government can reduce inequalities of	4
	income through taxes and public expenditure. It may impose high taxes on the rich to	
	reduce their disposable income. Furthermore, government may incur more public	
	expenditure for the welfare of the poor, like providing free services etc. By adopting these	
	measures, the government tries to bridge the gap between the rich and the poor.

(b)	With valid reasons, classify the following into Capital receipts or Revenue receipts of the government:	
	(i) Loans taken by the government from Reserve Bank of India (RBI).	
	(ii) Receipts of the government from sale of shares of a Public Sector Undertaking (PSU) in open market.	
	(iii) Debt cleared by Sri Lanka Government to the Indian Government.	
	Ans.	
	(i) It is a capital receipt as it increases the liabilities of the government.	2
	(ii) It is a capital receipt as it reduces the assets of the government.	2
	(iii) It is a capital receipt as it reduces the assets of the government.	2

29.	being a huge burden on government finances. (To be marked as a whole)	

	Ans. No. The goal of equity was not fully served by abolition of intermediaries, as in some areas the erstwhile zamindars continued to own large areas of land by making use of the loopholes in the legislation. There were cases where tenants were evicted and the	3
	landowners claimed to be self-cultivators. Even when the tillers got ownership of land, the poorest of the agricultural labourers did not benefit from land reforms. (To be marked as a whole)	5

(b) (i)	OR "It is necessary to generate employment in the formal sector rather than the informal sector." Justify the given statement with valid arguments. Ans. In the formal sector, workers can form trade unions and are entitled to fair wages and other social security measures. Whereas, workers in the informal sector do not get regular income. Also, they do not have any protection or regulation from the government. Many a time, workers may be dismissed without any compensation. Hence, formal sector employees are generally in a better position as compared to informal sector employees. Therefore, it is essential to generate employment in the formal sector rather than the informal sector. (To be marked as a whole)	6
