Marking Scheme Strictly Confidential (For Internal and Restricted use only) Senior School Certificate Examination, 2024

ECONOMICS (SUBJECT CODE – 030)

(PAPER CODE – 58/2/3)

General	Instructions: -	•
---------	-----------------	---

Gener	ral Instructions: -
1	You are aware that evaluation is the most important process in the actual and correct assessment of the candidates. A small mistake in evaluation may lead to serious problems which may affect the future of the candidates, education system and teaching profession. To avoid mistakes, it is requested that before starting evaluation, you must read and understand the spot evaluation guidelines carefully.
2	"Evaluation policy is a confidential policy as it is related to the confidentiality of the examinations conducted, Evaluation done and several other aspects. Its' leakage to public in any manner could lead to derailment of the examination system and affect the life and future of millions of candidates. Sharing this policy/document to anyone, publishing in any magazine and printing in News Paper/Website etc may invite action under various rules of the Board and IPC."
3	Evaluation is to be done as per instructions provided in the Marking Scheme. It should not be done according to one's own interpretation or any other consideration. Marking Scheme should be strictly adhered to and religiously followed. However, while evaluating, answers which are based on latest information or knowledge and/or are innovative, they may be assessed for their correctness otherwise and due marks be awarded to them. In Class XII, while evaluating competency-based questions, please try to understand given answer and even if reply is not from marking scheme but correct competency is enumerated by the candidate, due marks should be awarded.
4	The Marking scheme carries only suggested value points for the answers. These are in the nature of Guidelines only and do not constitute the complete answer. The students can have their own expression and if the expression is correct, the due marks should be awarded accordingly.
5	The Head-Examiner must go through the first five answer books evaluated by each evaluator on the first day, to ensure that evaluation has been carried out as per the instructions given in the Marking Scheme. If there is any variation, the same should be zero after delibration and discussion. The remaining answer books meant for evaluation shall be given only after ensuring that there is no significant variation in the marking of individual evaluators.
6	Evaluators will mark($$) wherever answer is correct. For wrong answer CROSS 'X" be marked. Evaluators will not put right (\checkmark) while evaluating which gives an impression that answer is correct and no marks are awarded. This is most common mistake which evaluators are committing.
7	If a question has parts, please award marks on the right-hand side for each part. Marks awarded for different parts of the question should then be totaled up and written in the left-hand margin and encircled. This may be followed strictly.

8	If a question does not have any parts, marks must be awarded in the left-hand margin and encircled. This may also be followed strictly.
9	If a student has attempted an extra question, answer of the question deserving more marks should be retained and the other answer scored out with a note "Extra Question".
10	No marks to be deducted for the cumulative effect of an error. It should be penalized only once.
11	A full scale of marks 80 has to be used. Please do not hesitate to award full marks if the answer deserves it.
12	Every examiner has to necessarily do evaluation work for full working hours i.e., 8 hours every day and evaluate 20 answer books per day in main subjects and 25 answer books per day in other subjects (Details are given in Spot Guidelines).
13	Ensure that you do not make the following common types of errors committed by the Examiner in the past:- Giving more marks for an answer than assigned to it.
	 Wrong totaling of marks awarded on an answer. Wrong transfer of marks from the inside pages of the answer book to the title page. Wrong question wise totaling on the title page. Leaving answer or part thereof unassessed in an answer book. Wrong totaling of marks of the two columns on the title page. Wrong grand total. Marks in words and figures not tallying/not same. Wrong transfer of marks from the answer book to online award list. Answers marked as correct, but marks not awarded. (Ensure that the right tick mark is correctly and clearly indicated. It should merely be a line. Same is with the X for incorrect answer.) Half or a part of answer marked correct and the rest as wrong, but no marks awarded.
14	While evaluating the answer books if the answer is found to be totally incorrect, it should be marked as cross (X) and awarded zero (0)Marks.
15	Any un assessed portion, non-carrying over of marks to the title page, or totaling error detected by the candidate shall damage the prestige of all the personnel engaged in the evaluation work as also of the Board. Hence, in order to uphold the prestige of all concerned, it is again reiterated that the instructions be followed meticulously and judiciously.
16	The Examiners should acquaint themselves with the guidelines given in the "Guidelines for spot Evaluation" before starting the actual evaluation.
17	Every Examiner shall also ensure that all the answers are evaluated, marks carried over to the title page, correctly totaled and written in figures and words.
18	The candidates are entitled to obtain photocopy of the Answer Book on request on payment of the prescribed processing fee. All Examiners/Additional Head Examiners/Head Examiners are once again reminded that they must ensure that evaluation is carried out strictly as per value points for each answer as given in the Marking Scheme.

MARKING SCHEME

Senior Secondary School Examination 2024

ECONOMICS (Subject Code-030)

[Paper Code : 58/2/3]

Maximum Marks: 80

Q. No.	EXPECTED ANSWER / VALUE POINTS	Marks
	SECTION -A	
	(Macro Economics)	
1.	Identify which of the following will appear on the debit side in the Capital Account of	
	India's Balance of Payments.	
	(A) An Indian sending remittances from England	
	(B) Investing in assets abroad by Indians	
	(C) An American company purchasing shares of an Indian company	
	(D) Export of spices from India	
	Ans. (B) Investing in assets abroad by Indians	1
2.	Identify which of the following is <i>not</i> one of the merits of fixed exchange rate system.	
	(A) Ensures stability in exchange rate	
	(B) Possibility of under or over valuation of foreign currency	
	(C) Prevents speculations in foreign exchange market	
	(D) Coordination of macroeconomic policies becomes convenient	
	Ans. (B) Possibility of under or over valuation of foreign currency	1
3.	Read the following statements carefully:	
	Statement 1: A consumption function describes the relationship between consumption and	
	savings.	
	Statement 2: Consumption function consists of two components - autonomous	
	consumption and induced consumption.	
	In the light of the given statements, choose the correct alternative from the following:	
	(A) Statement 1 is true and Statement 2 is false.	
	(B) Statement 1 is false and Statement 2 is true.	
	(C) Both Statements 1 and 2 are true.	
	(D) Both Statements 1 and 2 are false.	
	Ans. (B) Statement 1 is false and Statement 2 is true.	1
4.	Read the following statements carefully:	
	Statement 1: Economic territory and political frontier of a nation are one and the same thing.	
	Statement 2: American Embassy in India is a part of the economic territory of India.	
	In the light of the given statements, choose the correct alternative from the following:	
	(A) Statement 1 is true and statement 2 is false.	
	(B) Statement 1 is false and statement 2 is true.	
	(C) Both statements 1 and 2 are true.	
	(D)Both statements 1 and 2 are false.	
	Ans. (D) Both statements 1 and 2 are false.	1
5.	Identify the <i>incorrect</i> statement with reference to Cash Reserve Ratio (CRR):	
J.	(A) It is a certain percentage of demand and time deposit liabilities that every bank must	
	keep as cash reserves with the Central Bank.	
	(B) It is fixed by the Central Bank.	
	(C) It is not binding on the commercial banks.	
	(D) It is a tool used by the Central Bank to control the credit creation in the economy. Ans. (C) It is not binding on the commercial banks.	1
	Ans. (C) it is not omining on the commercial banks.	1

6.	Study the following figure carefully and choose the correct alternative to fill in the blank:	
	Balance of Payments Account Current Account Account Trade in merchandise Transfer Payments	
	Alternatives:	
	(A) Investments (B) Trade of Services	
	(C) External Borrowings (D)External Assistance	
	Ans. (B) Trade of Services	1
7.	Read the following statements carefully: Statement 1: Money is a commodity which is generally accepted as a medium of exchange. Statement 2: Money solved the problem of double coincidence of wants. In the light of the given statements, choose the correct alternative from the following: (A) Statement 1 is true and statement 2 is false. (B) Statement 1 is false and statement 2 is true. (C) Both statements 1 and 2 are true. (D) Both statements 1 and 2 are false.	
	Ans. (C) Both statements 1 and 2 are true.	1
8.	Suppose in an imaginary economy, autonomous consumption = ₹ 500 crore and marginal	
	propensity to consume = 0.8. The saving function for the economy would be (Choose the correct alternative to fill in the blank) (A) $500 + 0.8Y$ (B) (-) $500 + 0.8Y$ (D) (-) $500 + 0.2Y$	1
0	Ans. (D) (-) 500 + 0.2Y Read the following statements: Assertion (A) and Reason (B) Change the correct	1
9.	Read the following statements: Assertion (A) and Reason (R). Choose the correct alternative from those given below: Assertion (A): The equilibrium level of income is determined, when ex-ante spending and ex-ante output are equal. Reason (R): The equilibrium level of income may or may not be the same as the full employment level of output. Alternatives: (A) Both Assertion (A) and Reason (R) are true and Reason (R) is the correct explanation of Assertion (A). (B) Both Assertion (A) and Reason (R) are true, but Reason (R) is not the correct explanation of Assertion (A). (C) Assertion (A) is true, but Reason (R) is false. (D) Assertion (A) is false, but Reason (R) is true.	
	Ans. (B) Both Assertion (A) and Reason (R) are true, but Reason (R) is not the	1
	correct explanation of Assertion (A).	-
10.	Read the following statements: Assertion (A) and Reason (R). Choose the correct alternative from those given below: Assertion (A): The maximum value of Marginal Propensity to Save (MPS) can be unity.	
	Reason (R): At the break-even level of income, savings are zero.	

	A 14 a ma a 4 i z v a			
	Alternative		(D) is the second small matical	
		ssertion (A) and Reason (R) are true and Re	eason (R) is the correct explanation	
	of Assertion	• •	(D) :	
		ssertion (A) and Reason (R) are true, but Reas	on (R) is not the correct explanation	
	of Assertion	• •		
	` '	on (A) is true, but Reason (R) is false.		
		on (A) is false, but Reason (R) is true.		
		oth Assertion (A) and Reason (R) are true,	but Reason (R) is not the correct	1
		n of Assertion (A).		
11.		odating transactions are undertaken to ma	intain stability in the Balance of	
(a)	Payments			
	•	given statement with valid explanation.		
		mmodating transactions are commonly u		
	Balance of	f Payments (BOP) account. Accommodat	ing transactions are independent	
	of any ec	onomic motive. These transactions are	determined by the net result of	3
	autonomo	ous items such as surplus or deficit in BOP	•	
	Hence, ac	commodating transactions play a crucial	l role in maintaining stability in	
	Balance of	f Payments account by providing a mecl	hanism to address imbalances in	
	internatio	nal transactions.	(To be marked as a whole)	
		OR		
(b)	"Deprecia	tion of currency may promote exports of a na	ation."	
()	_	refute the given statement with valid argume		
		given statement is defended. When the d		
		es, domestic goods become relatively chea		3
	_	increasing the demand of domestic goods	_	
	-	may promote exports of a nation.	(To be marked as a whole)	
12.		is of the data given below, estimate the value	<u> </u>	
14.	Cost (GNI	_	of Gross National Froduct at Factor	
	S. No.	Items	Amount	
	J. 140.	nems	(in ₹ crore)	
	(i)	Wagas and Calorias	2,000	
	(i)	Wages and Salaries	, ,	
	(ii)	Rent and Interest	800	
	(iii)	Corporate Tax	500	
	(iv)	Undistributed Profit	300	
	(v)	Dividend	200	
	(vi)	Depreciation	150	
	(vii)	Net factor income from abroad	(-) 50	
	Ans.			
	Gross Na	ional Product at Factor Cost (GNPFC) = (i	\mathbf{i})+ (\mathbf{ii}) + (\mathbf{iv}) + (\mathbf{v}) + (\mathbf{vi}) + (\mathbf{vii})	1 1/2
		=2,0	000+800+500+300+200+150+(-50)	1
		=₹;	3900 crore	1/2

	Public production relates to those goods which are directly produced by the	1
	government.	6
17.	Read the following text carefully:	U
	Decisions taken by factors of production in the production process often may affect the	
	stakeholders indirectly. Such impacts at times are huge but are not accounted for, while	
	estimating national income. Economists call them as externalities and they can be positive	
	or negative.	
	In this regard, many economists suggest carbon pricing as an important tool to ensure	
	ecological balance.	
	Carbon pricing tries to control greenhouse gas emissions by either placing a fee on emitting or offering subsidies on lesser emission. Through instruments like carbon tax, green cess,	
	eco tax, etc. economists suggest moving towards greener technology eliminating such	
	negative externalities.	
ĺ	On the basis of the given text and common understanding, answer the following questions:	
(i)	Define externalities.	
	Ans. Externalities refer to benefits/harms which are caused by one entity to another	1
	without being paid/ penalised for it.	
(**)		
(ii)	Differentiate between positive and negative externalities. And Positive externalities refer to benefits couged by one entity to enother without	
	Ans. Positive externalities refer to benefits caused by one entity to another, without being paid for it.	1
	Whereas;	
	Negative externalities refer to the harms caused by one entity to another, without	1
	being penalised for it.	1
(iii)	Elaborate how and why carbon pricing should be promoted.	
	Ans. Carbon pricing should be promoted by either placing a fee on emitting or	3
	offering subsidies on lesser emission. Through instruments like carbon tax, green cess, eco tax, etc. economy moves toward greener technology, eliminating negative	
	externalities. Hence, carbon pricing is an important tool to ensure ecological balance.

	SECTION – B	
	(Indian Economic Development)	
18.	China was able to control its rapid population growth rate owing to	
	(Choose the correct alternative to fill in the blank) (A) Economic reforms	
	(B) One-Child Policy	
	(C) Great Proletarian Cultural Revolution	
	(D) Special Economic Zones	
	Ans. (B) One-Child Policy	1
19.	During the British rule, India's foreign trade had various features except	
	(Choose the correct alternative to fill in the blank)	
	(A) Restrictive policies of commodity production, trade and tariff	
	(B) British monopoly over India's exports and imports	
	(C) Free trade from India to the rest of the world	
	(D) Large export surplus Ans. (C) Free trade from India to the rest of the world	1

20.	Modernization is an important economic planning objective that focuses on	
	(Choose the correct alternative to fill in the blank)	
	(i) Adoption of innovative technology	
	(ii) Equal distribution of income and wealth	
	(iii) Bringing positive changes in the social outlook	
	Alternatives:	
	(A) Only (i) (B) (i) and (ii)	
	(C) (i) and (iii) (D) (i), (ii) and (iii)	
	Ans. (C) (i) and (iii)	1
21.	farming is a system that is helpful in restoring, maintaining and enhancing the	
	ecological balance. (Choose the correct alternative to fill in the blank)	
	(A) Conventional (B) Organic	
	(C) Chemical (D) Multi-layered	
	Ans. (B) Organic	1
22.	The present day rapid industrial growth in China can be traced back to the economic reforms	
	introduced in 1978, where	
	(Choose the correct alternative to fill in the blank)	
	(i) initially reforms were initiated in agriculture, foreign trade and investment sectors	
	(ii) the policy of dual pricing was adopted	
	(iii) the Government revoked the policy of Special Economic Zones	
	Alternatives:	
	(A) Only (i) (B) only (ii)	
	(C) (i) and (ii) (D) (i), (ii) and (iii)	
	Ans. (C) (i) and (ii)	1
23.	Read the following statements: Assertion (A) and Reason (R). Choose the correct alternative	
	from those given below:	
	Assertion (A): In the recent past, Indian economy has been facing the problem of jobless	
	growth.	
	Reason (R): Jobless growth refers to a situation where an economy is able to produce more	
	goods and services without generating additional employment.	
	Alternatives:	
	(A) Both Assertion (A) and Reason (R) are true and Reason (R) is the correct explanation	
	of Assertion (A).	
	(B) Both Assertion (A) and Reason (R) are true, but Reason (R) is not the correct	
	explanation of Assertion (A).	
	(C)Assertion (A) is true, but Reason (R) is false.	
	(D) Assertion (A) is false, but Reason (R) is true.	
	Ans. (B) Both Assertion (A) and Reason (R) are true, but Reason (R) is not the correct	1
	explanation of Assertion (A).	
24.	Read the following statements carefully:	
	Statement 1: India, Pakistan and China have similar physical endowments, but totally	
	different political systems.	
	Statement 2: Both India and Pakistan laid great emphasis on creating a large private sector.	
	In the light of the given statements, choose the correct alternative from the following:	
	(A) Statement 1 is true and Statement 2 is false.	
	(B) Statement 1 is false and Statement 2 is true.	
	(C) Both Statements 1 and 2 are true.	
	(D) Both Statements 1 and 2 are false.	
	Ans. (A) Statement 1 is true and Statement 2 is false.	1

OR		· · · · · · · · · · · · · · · · · · ·	

(b)	Discuss briefly the given statement. Ans. In India, Information Technology (IT) plays a crucial role as government can predict areas of food insecurity and vulnerability using appropriate information and software tools. It helps in disseminating information regarding emerging technologies and their applications, prices, weather and soil conditions for growing different crops etc. It acts as a tool for releasing the creative potential and knowledge embedded in the society. Moreover, it generates employment in rural areas. Hence, IT plays a vital role in achieving rural development and food security in a nation like India. (To be marked as a whole)	3
29.	Interpret the given picture and explain any one strategy to control it from becoming an ecological disaster.	3
	And The given victors illustrates the problem of air rellution caused due to quift	
	Ans. The given picture illustrates the problem of air pollution caused due to swift industrial development. The release of contaminants like noxious gases, particulate matter, and other substances in the atmosphere leads to health issues and environmental degradation. In order to control air pollution, it becomes imperative to switch to cleaner sources of energy. The use of non-conventional sources of energy such as solar power, wind power maintains ecological balance.	1 ½ 1½
	(Any other valid strategy to be awarded marks)	
	Note: The following question is for the <i>Visually Impaired Candidates</i> only, in lieu of Q. No. 29 State any two strategies to achieve the objective of sustainable development. Ans. Two strategies to achieve the objective of sustainable development are:	
	Use of wind energy: In areas where speed of wind is usually high, windmills can be used to generate electricity without any adverse impact on the environment.	1 ½
	• Use of solar energy: With the help of photovoltaic cells/solar panels, solar energy can be converted into electricity. This technology is extremely useful for remote areas and is free from pollution. (Any other valid strategy to be awarded marks)	1 ½
30.	Discuss any two benefits accruing from human capital formation.	3
	Ans. The benefits accruing from human capital formation are:	_
	• Investment in human capital formation enhances efficiency, skill, and capabilities contributing to higher productivity which in turn leads to economic growth.	2
	 Healthy and educated people may provide an uninterrupted labour supply for a long period. Thereby, increasing the income which may improve the quality of life. 	2

(iii)	(Any other valid source to be awarded marks) Elaborate the need to promote women's education in India.	
(111)	Ans. Promoting women's education in India is imperative for societal progress and	
	gender equality. Educated women contribute to economic growth by entering the	
	workforce and making informed decisions about their lives. Moreover, educating	3
	women makes a favourable impact on the fertility rate and health care of women and	3
	children. Hence, investing in women's education uplifts communities and drives	
	sustainable development across India. (To be marked as a whole)	
	OR	6
(b)	"The participation rate of people in economic activities in rural areas is more than that in	
(i)	urban areas."	
	Justify the given statement.	
	Ans. People in rural areas have limited resources. To earn higher income people	
	participate more in the employment market.	
	As compared to rural areas, a large section in the urban areas can attain formal	
	education and have a variety of employment opportunities at their disposal. Thus,	3
	people in urban areas look for appropriate job to suit their qualifications and skills.	
	Hence, participation rate of people in economic activities in rural areas is more than	
	that in urban areas. (To be marked as a whole)	
(ii)	Define disguised unemployment. State its implications on output and employment in a	
	country.	
	Ans. Disguised unemployment refers to a situation when the person seems to be	1 1/2
	employed but is not contributing to the output i.e., the marginal productivity of labour	
	is zero.	
	People who are disguisedly unemployed do not contribute anything to the output.	
		1 1/2
	Hence, there is no change in the output and employment in a country.	1 1/2
	Hence, there is no change in the output and employment in a country.	6

34.	Read the following text carefully: India's industrial policy since independence has been shaped broadly in terms of the Industrial Policy Resolution of 1948. It emphasized on the sole responsibility of the government in the matter of promoting, assisting and regulating the development of industries in the national interest. It envisaged an active and dominant role of public sector. The next Industrial Policy Resolution was placed before the Parliament by the Prime Minister on 30th April, 1956. It suggested that, "There is a need for adoption of the socialist pattern of economy as the national objective, along with the need for planned and rapid development. It required that all industries of basic and strategic importance, or in public utility services, should be in the public sector. Other industries which are essential and require investment on a massive scale (which only the State could provide) have also to be in the public sector. Thus, the State has to assume direct responsibility for the future development of industries." This Resolution classifies industries into three categories: • The first category given in Schedule A, consists of industries the future development of which will be the exclusive responsibility of the State.	

(i)	 The third category comprises all the remaining industries, the further development of which will be left to the initiative and enterprise of the private sector. On the basis of the given text and common understanding, answer the following questions: "The Government of India, in the initial years of economic development, emphasized on a greater role of the public sector in the industrial development." Justify the statement, giving reasons in support of your answer. Ans. In the initial years of economic development, the Government of India emphasized on a greater role of the public sector in the industrial development as industrialists did not have the capital to undertake the investment in industrial ventures. The market was not big enough to encourage industrialists to undertake major projects. 	3
(ii)	 Outline and discuss the classification of industries into various categories as per Industrial Policy Resolution, 1956. Ans. Industrial policy Resolution 1956 classifies industries into three categories: The first category given in Schedule A, consists of industries the future development of which will be the exclusive responsibility of the State. In the second category given in Schedule B, are industries which will be progressively State-owned. However, in them, private enterprise will also be expected to participate. The third category comprises all the remaining industries, the further development of which will be left to the initiative and enterprise of the private sector. 	1 1 1
