

DU MSc Anthropology

Topic:- DU_J19_MSC_ANTHRO

1) When there are different manifestations of a trait produced by a gene is known as [Question ID = 14083]

1. reversion [Option ID = 26331]
2. lethality [Option ID = 26332]
3. expressivity [Option ID = 26329]
4. penetrance [Option ID = 26330]

Correct Answer :-

- expressivity [Option ID = 26329]

2) When the position of the centromere is at the terminal end of the chromosome, it is called [Question ID = 14058]

1. acrocentric [Option ID = 26232]
2. telocentric [Option ID = 26231]
3. submetacentric [Option ID = 26230]
4. metacentric [Option ID = 26229]

Correct Answer :-

- telocentric [Option ID = 26231]

3) Which article in the constitution states that the 'State shall promote, with special care, the educational and economic interests of the weaker sections of the people, and in particular, of the Scheduled Castes, and the Scheduled Tribes, and shall protect them from social injustice and all forms of exploitation'.

[Question ID = 14061]

1. Article 23 [Option ID = 26243]
2. Article 24 [Option ID = 26244]
3. Article 15 [Option ID = 26242]
4. Article 46 [Option ID = 26241]

Correct Answer :-

- Article 46 [Option ID = 26241]

4) Cultural ecology was coined by [Question ID = 14068]

1. Arne Ness [Option ID = 26271]
2. Julian Steward [Option ID = 26272]
3. Roy Rappaport [Option ID = 26269]
4. Marvin Harris [Option ID = 26270]

Correct Answer :-

- Julian Steward [Option ID = 26272]

5) Cultural material redeposited from its original discard location is called [Question ID = 14070]

1. Secondary deposit [Option ID = 26279]
2. In Situ [Option ID = 26280]
3. A primary deposition [Option ID = 26277]
4. A natural transformational process [Option ID = 26278]

Correct Answer :-

- Secondary deposit [Option ID = 26279]

6) A method of generating settlement hierarchy is known through [Question ID = 14076]

1. XTENT modeling [Option ID = 26301]
2. Subsurface detection [Option ID = 26303]
3. Synostosis [Option ID = 26304]
4. Trace element analysis [Option ID = 26302]

Correct Answer :-

- XTENT modeling [Option ID = 26301]

7) A method of achieving a fairly standardized assessment of the area habitually used by a site's occupants is known as [Question ID = 14075]

1. Redistribution [Option ID = 26298]
2. Site Exploitation Territory (SET) [Option ID = 26299]
3. Sphere of exchange [Option ID = 26297]
4. Standing wave technique [Option ID = 26300]

Correct Answer :-

- Site Exploitation Territory (SET) [Option ID = 26299]

8) A terracotta boat model was found from [Question ID = 14047]

1. Farmana [Option ID = 26188]
2. Kunal [Option ID = 26185]
3. Kalibangan [Option ID = 26186]
4. Lothal [Option ID = 26187]

Correct Answer :-

- Lothal [Option ID = 26187]

9) 'Particulate gene theory' was proposed by [Question ID = 14080]

1. Sutton [Option ID = 26317]
2. Punnet [Option ID = 26320]
3. Morgan [Option ID = 26319]
4. Johanssen [Option ID = 26318]

Correct Answer :-

- Morgan [Option ID = 26319]

10) Each chromosome carries a distinct region which plays a fundamental role in chromosome movement during mitosis. This region is [Question ID = 14085]

1. chromatid [Option ID = 26337]
2. centromere or kinetochore [Option ID = 26340]
3. centriole [Option ID = 26338]
4. telomere [Option ID = 26339]

Correct Answer :-

- centromere or kinetochore [Option ID = 26340]

11) Deliberated burial of modern human remains for the first time are found from [Question ID = 14073]

1. Neolithic Period [Option ID = 26289]
2. Lower Paleolithic Period [Option ID = 26290]
3. Middle Paleolithic Period [Option ID = 26291]
4. Upper Paleolithic period [Option ID = 26292]

Correct Answer :-

- Upper Paleolithic period [Option ID = 26292]

12) Which of the following is the largest chromosome? [Question ID = 14079]

1. polytene chromosome [Option ID = 26314]
2. lampbrush chromosome [Option ID = 26316]
3. supernumerary chromosome [Option ID = 26313]
4. X chromosome [Option ID = 26315]

Correct Answer :-

- X chromosome [Option ID = 26315]

13) When a person affiliates himself to both paternal and maternal groups for specific reasons

[Question ID = 14032]

1. Cognitive descent [Option ID = 26128]
2. Double descent [Option ID = 26127]
3. Bilateral descent [Option ID = 26126]
4. Parallel descent [Option ID = 26125]

Correct Answer :-

- Double descent [Option ID = 26127]

14) When a group of people trace their ancestry to a common mythical ancestor, it is called

[Question ID = 14092]

1. clan [Option ID = 26365]
2. tribe [Option ID = 26367]
3. moiety [Option ID = 26366]
4. phratry [Option ID = 26368]

Correct Answer :-

- clan [Option ID = 26365]

15) The term genotype and phenotype were introduced by [Question ID = 14051]

1. Darwin [Option ID = 26203]
2. Bateson [Option ID = 26204]
3. Mendel [Option ID = 26201]
4. Johannsen [Option ID = 26202]

Correct Answer :-

- Johannsen [Option ID = 26202]

16) The term gene which was coined by Wilhelm Johannsen was termed by Gregor Mendel as [Question ID = 14050]

1. factor [Option ID = 26199]
2. replicon [Option ID = 26198]
3. allele [Option ID = 26197]
4. cistron [Option ID = 26200]

Correct Answer :-

- factor [Option ID = 26199]

17) The skeletal morphology of Cro-Magnon man resembles [Question ID = 14103]

1. Negroid characters mostly [Option ID = 26410]
2. Caucasoid characters mostly [Option ID = 26409]
3. Australoid characters mostly [Option ID = 26412]
4. Mongoloid characters mostly [Option ID = 26411]

Correct Answer :-

- Caucasoid characters mostly [Option ID = 26409]

18) Identify the characteristic tools of Upper Palaeolithic culture

[Question ID = 14044]

1. Parallel-sided Blade [Option ID = 26174]
2. Flake cleaver [Option ID = 26176]
3. Bifacial chopper [Option ID = 26173]
4. Pear-shaped hand axe [Option ID = 26175]

Correct Answer :-

- Parallel-sided Blade [Option ID = 26174]

19) Sustainable development was first conceptualized based on one report submitted by World Commission on Environment and Development (WCED). Name the report. [Question ID = 14090]

1. Save the Planet [Option ID = 26360]
2. Our planet Earth [Option ID = 26358]
3. Green Earth [Option ID = 26359]
4. Our common future [Option ID = 26357]

Correct Answer :-

- Our common future [Option ID = 26357]

20) The book '*Systema Naturae*' written by Carolus Linnaeus was first published in the year [Question ID = 14023]

1. 1736 [Option ID = 26091]
2. 1735 [Option ID = 26090]
3. 1734 [Option ID = 26089]
4. 1737 [Option ID = 26092]

Correct Answer :-

- 1735 [Option ID = 26090]

21) The book '*Finger prints, palms and soles – An introduction to dermatoglyphics*' is written by [Question ID = 14027]

1. Henry P. de Forest and Thomas Bewick [Option ID = 26107]
2. Norma Ford and Harris H. Wilder [Option ID = 26105]
3. Edwin A. Ohler and H. M. Johnson [Option ID = 26106]
4. Harold Cummins and Charles Midlo [Option ID = 26108]

Correct Answer :-

- Harold Cummins and Charles Midlo [Option ID = 26108]

22) Any perspective which emphasizes a breakdown of enlightenment ideals, rejection of validity of purported objective categories or scientific methods [Question ID = 14112]

1. Postmodernism [Option ID = 26446]
2. Poststructuralism [Option ID = 26445]
3. Practice theory [Option ID = 26448]
4. Reflexivity [Option ID = 26447]

Correct Answer :-

- Postmodernism [Option ID = 26446]

23) *Pithecanthropus erectus* (Java man) was existed during the geological age [Question ID = 14102]

1. Early Pleistocene epoch [Option ID = 26405]
2. Late Pleistocene epoch [Option ID = 26407]
3. Middle Pleistocene epoch [Option ID = 26406]
4. Pliocene epoch [Option ID = 26408]

Correct Answer :-

- Middle Pleistocene epoch [Option ID = 26406]

24) According to Radcliffe-Brown, relationship having a symbolic meaning; a kind of friendliness expressed by a show of hostility is called

[Question ID = 14095]

1. Amitate [Option ID = 26379]
2. Avoidance relationship [Option ID = 26377]
3. Joking relationship [Option ID = 26380]
4. Couvade [Option ID = 26378]

Correct Answer :-

- Joking relationship [Option ID = 26380]

25) *Ardipithecus ramidus* was discovered by

[Question ID = 14098]

1. Ian Tattersall [Option ID = 26389]
2. Chris Stringer [Option ID = 26392]
3. Tim White [Option ID = 26391]
4. Milford Wolpoff [Option ID = 26390]

Correct Answer :-

- Tim White [Option ID = 26391]

26) Mendel's law of independent assortment can be demonstrated by [Question ID = 14056]

1. monohybrid cross [Option ID = 26222]
2. dihybrid cross [Option ID = 26224]
3. back cross [Option ID = 26223]
4. test cross [Option ID = 26221]

Correct Answer :-

- dihybrid cross [Option ID = 26224]

27) During mitosis the chromosomes begin to separate in [Question ID = 14052]

1. anaphase stage [Option ID = 26206]
2. metaphase stage [Option ID = 26205]
3. prophase stage [Option ID = 26207]
4. telophase stage [Option ID = 26208]

Correct Answer :-

- anaphase stage [Option ID = 26206]

28) *Parapithecus* was flourished in Fayum deposit of Egypt during [Question ID = 14099]

1. Oligocene epoch [Option ID = 26395]
2. Miocene epoch [Option ID = 26396]
3. Eocene epoch [Option ID = 26394]
4. Paleocene epoch [Option ID = 26393]

Correct Answer :-

- Oligocene epoch [Option ID = 26395]

29) Understanding the dynamics of behavior through relevant patterns in data, in archaeology, could be best known through

[Question ID = 14077]

1. Site catchment analysis [Option ID = 26307]
2. Middle Range theory [Option ID = 26306]
3. Experimental archaeology [Option ID = 26308]
4. Chaineoperatoire [Option ID = 26305]

Correct Answer :-

- Middle Range theory [Option ID = 26306]

30) The change in gene frequencies over time in a population is regarded as [Question ID = 14020]

1. adaptive radiation [Option ID = 26078]
2. evolution [Option ID = 26079]
3. genetic drift [Option ID = 26080]
4. variation [Option ID = 26077]

Correct Answer :-

- evolution [Option ID = 26079]

31) In 1901, three biologists independently discovered Mendel's principles. They are [Question ID = 14053]

1. Avery, MacLeod and McCarty [Option ID = 26211]
2. Sutton, Morgan and Bridges [Option ID = 26212]
3. Bateson, Punnett and Bridges [Option ID = 26210]
4. de Vries, Correns and Tschermak [Option ID = 26209]

Correct Answer :-

- de Vries, Correns and Tschermak [Option ID = 26209]

32) Half-life of Radioactive decay in Carbon 14 dating is [Question ID = 14078]

1. 6730 years [Option ID = 26309]
2. 5730 years [Option ID = 26312]
3. 4730 years [Option ID = 26310]
4. 5880 years [Option ID = 26311]

Correct Answer :-

- 5730 years [Option ID = 26312]

33) A test cross distinguishes between [Question ID = 14055]

1. two heterozygous forms [Option ID = 26219]
2. two homozygous forms [Option ID = 26217]
3. a homozygous recessive and the heterozygous form [Option ID = 26220]
4. a homozygous dominant and the heterozygous form [Option ID = 26218]

Correct Answer :-

- a homozygous dominant and the heterozygous form [Option ID = 26218]

34) To explain the spacing and function of the settlement landscape that Christaller developed is known as [Question ID = 14074]

1. Central place theory [Option ID = 26293]
2. Site Catchment analysis [Option ID = 26295]
3. Environmental circumscription [Option ID = 26296]
4. Experimental archaeology [Option ID = 26294]

Correct Answer :-

- Central place theory [Option ID = 26293]

35) Muchchatla Chintamani Gavi, an Upper Palaeolithic cave site is situated in [Question ID = 14042]

1. Karnataka [Option ID = 26165]
2. Tamil Nadu [Option ID = 26168]
3. Kerala [Option ID = 26166]
4. Andhra Pradesh [Option ID = 26167]

Correct Answer :-

- Andhra Pradesh [Option ID = 26167]

36) Incest taboo is the essence of culture. This is a statement made by [Question ID = 14034]

1. Clifford Geertz [Option ID = 26136]
2. Radcliffe-Brown [Option ID = 26135]
3. Claude Levi-Strauss [Option ID = 26133]
4. E.E. Evans-Pritchard [Option ID = 26134]

Correct Answer :-

- Claude Levi-Strauss [Option ID = 26133]

37) When a cross is made between off-springs and its parents, it is known as [Question ID = 14054]

1. monohybrid cross [Option ID = 26213]
2. dihybrid cross [Option ID = 26214]
3. back cross [Option ID = 26215]
4. reciprocal cross [Option ID = 26216]

Correct Answer :-

- back cross [Option ID = 26215]

38) The fossil primate *Darwiniusmasillae* was unearthed from [Question ID = 14104]

1. Lower Oligocene sediments [Option ID = 26416]
2. Lower Eocene sediments [Option ID = 26413]
3. Middle Eocene sediments [Option ID = 26414]
4. Upper Eocene sediments [Option ID = 26415]

Correct Answer :-

- Middle Eocene sediments [Option ID = 26414]

39) The fossil primate *Archicebusachilles* was recovered from [Question ID = 14105]

1. Qinghai-Xizang (Tibetan) Plateau of China [Option ID = 26419]
2. Hubei Province in central China [Option ID = 26418]
3. Choukoutien near Beijing of China [Option ID = 26417]
4. Anhui Province of China [Option ID = 26420]

Correct Answer :-

- Hubei Province in central China [Option ID = 26418]

40) A gamete cell containing single genome is known as [Question ID = 14084]

1. polyploid [Option ID = 26336]
2. tetraploid [Option ID = 26335]
3. haploid [Option ID = 26333]
4. triploid [Option ID = 26334]

Correct Answer :-

- haploid [Option ID = 26333]

41) To which techno-cultural phase Perigordian culture belongs? [Question ID = 14046]

1. Neolithic [Option ID = 26183]
2. Lower Palaeolithic [Option ID = 26184]
3. Mesolithic [Option ID = 26182]

4. Upper Palaeolithic [Option ID = 26181]

Correct Answer :-

- Upper Palaeolithic [Option ID = 26181]

42) A belief in impersonal supernatural forces or impersonal power behind every material object besides living beings is called

[Question ID = 14037]

1. Animatism [Option ID = 26147]
2. Animism [Option ID = 26145]
3. Totemism [Option ID = 26146]
4. Witchcraft [Option ID = 26148]

Correct Answer :-

- Animatism [Option ID = 26147]

43) Beginning of the Holocene is not characterized by

[Question ID = 14039]

1. Beginning of the long climatic cold-warm circles [Option ID = 26155]
2. Beginning of the annual climatic cycles? [Option ID = 26156]
3. Appearance of Homo-sapiens [Option ID = 26154]
4. Present day fauna [Option ID = 26153]

Correct Answer :-

- Beginning of the annual climatic cycles? [Option ID = 26156]

44) The cheek bones of *Homo erectus pekinensis* resemble with [Question ID = 14116]

1. the modern Protoaustraloids [Option ID = 26464]
2. the modern Caucasoids [Option ID = 26461]
3. the modern Negroids [Option ID = 26463]
4. the modern Mongoloids [Option ID = 26462]

Correct Answer :-

- the modern Mongoloids [Option ID = 26462]

45) Synthetic theory of evolution identifies four basic factors to cause change in gene frequency. These are - [Question ID = 14019]

1. conflict, gene flow, natural selection and genetic drift [Option ID = 26076]
2. mutation, natural selection, gene flow and genetic drift [Option ID = 26075]
3. mutation, natural selection, gene flow and conflict [Option ID = 26073]
4. natural selection, mutation, conflict and genetic drift [Option ID = 26074]

Correct Answer :-

- mutation, natural selection, gene flow and genetic drift [Option ID = 26075]

46) Name the anthropologist who made one of the first systematic attempts to define status and role in 'the study of man'. [Question ID = 14029]

1. Ralph Linton [Option ID = 26114]
2. Ralph Lauren [Option ID = 26115]
3. Robert Redfield [Option ID = 26113]
4. Robert Brooke [Option ID = 26116]

Correct Answer :-

- Ralph Linton [Option ID = 26114]

47) Baldness is [Question ID = 14086]

1. none of these [Option ID = 26344]
2. sex-linked trait [Option ID = 26343]
3. sex-limited trait [Option ID = 26341]
4. sex-influenced or sex-controlled trait [Option ID = 26342]

Correct Answer :-

- sex-influenced or sex-controlled trait [Option ID = 26342]

48) Social fact as a concept was given by [Question ID = 14030]

1. Levi-Strauss [Option ID = 26120]
2. Max Weber [Option ID = 26117]
3. Karl Marx [Option ID = 26118]
4. Emile Durkheim [Option ID = 26119]

Correct Answer :-

- Emile Durkheim [Option ID = 26119]

49) Identify material generally used for manufacturing Harappan seals [Question ID = 14045]

1. Faience [Option ID = 26178]
2. Agate [Option ID = 26177]
3. Iron [Option ID = 26179]
4. Lapis Lazuli [Option ID = 26180]

Correct Answer :-

- Faience [Option ID = 26178]

50) Contextual seriation and frequency seriation are dating methods known as

[Question ID = 14072]

1. Absolute dating [Option ID = 26285]
2. Faunal dating [Option ID = 26288]
3. Linguistic dating [Option ID = 26287]
4. Relative dating [Option ID = 26286]

Correct Answer :-

- Relative dating [Option ID = 26286]

51) *Propliopithecus* is considered as ancestral form of modern [Question ID = 14024]

1. Gorilla [Option ID = 26093]
2. Chimpanzee [Option ID = 26094]
3. Orangutan [Option ID = 26096]
4. Gibbon [Option ID = 26095]

Correct Answer :-

- Gibbon [Option ID = 26095]

52) The name genetics was proposed by [Question ID = 14049]

1. Joseph Kolreuter in 1760 [Option ID = 26195]
2. Gregor J. Mendel in 1884 [Option ID = 26193]
3. William Bateson in 1905 [Option ID = 26196]
4. John Gross in 1820 [Option ID = 26194]

Correct Answer :-

- William Bateson in 1905 [Option ID = 26196]

53)

An ecological account of ritual among the Tsembaga Maring of New Guinea was written by? [Question ID = 14067]

1. Arne Ness [Option ID = 26267]
2. Julian Steward [Option ID = 26268]
3. Roy Rappaport [Option ID = 26265]
4. Marvin Harris [Option ID = 26266]

Correct Answer :-

- Roy Rappaport [Option ID = 26265]

54) Who wrote 'Argonauts of the Western Pacific'? [Question ID = 14060]

1. A.R. Radcliffe-Brown [Option ID = 26237]
2. Bronislaw Malinowski [Option ID = 26238]
3. Meyer Fortes [Option ID = 26239]
4. Evans-Pritchard [Option ID = 26240]

Correct Answer :-

- Bronislaw Malinowski [Option ID = 26238]

55) The smallest meaningful unit of language [Question ID = 14110]

1. Morpheme [Option ID = 26437]
2. Langue [Option ID = 26438]
3. Mytheme [Option ID = 26440]
4. Parole [Option ID = 26439]

Correct Answer :-

- Morpheme [Option ID = 26437]

56) The process of increasing contact between societies, especially in the economic sphere, across the globe is called [Question ID = 14108]

1. Acculturation [Option ID = 26429]
2. None of these [Option ID = 26432]
3. Assimilation [Option ID = 26430]
4. Globalization [Option ID = 26431]

Correct Answer :-

- Globalization [Option ID = 26431]

57) A special role for one's father's sister is designated as

[Question ID = 14096]

1. Amitate [Option ID = 26383]
2. Couvade [Option ID = 26381]
3. Cognate [Option ID = 26384]
4. Avunculate [Option ID = 26382]

Correct Answer :-

- Amitate [Option ID = 26383]

58) Meyer Fortes argued that the Developmental cycle of Domestic Group has three phases [Question ID = 14107]

1. Substitution; reproduction; distribution [Option ID = 26428]
2. Expansion; dispersion; replacement [Option ID = 26426]
3. Replacement; expansion, dispersion [Option ID = 26425]
4. Replacement; dispersion; expansion [Option ID = 26427]

Correct Answer :-

- Expansion; dispersion; replacement [Option ID = 26426]

59) Any approach which proceeds from specific examples to general conclusions.

[Question ID = 14109]

1. Interactive [Option ID = 26435]
2. Deductivism [Option ID = 26433]
3. Inductivism [Option ID = 26434]
4. Intertextual [Option ID = 26436]

Correct Answer :-

- Inductivism [Option ID = 26434]

60) 'Stepping stone model' of population structure was proposed by [Question ID = 14118]

1. Motoo Kimura and George H. Weiss [Option ID = 26469]
2. Sudhir Kumar [Option ID = 26471]
3. Masatoshi Nei [Option ID = 26470]
4. Koichiro Tamura [Option ID = 26472]

Correct Answer :-

- Motoo Kimura and George H. Weiss [Option ID = 26469]

61) Which anthropologists studied Balinese character by using photographs only? [Question ID = 14065]

1. Margaret Mead and Gregory Bateson [Option ID = 26257]
2. Margaret Mead and Franz Boas [Option ID = 26259]
3. Ruth Benedict and Franz Boas [Option ID = 26258]
4. Ruth Benedict and Gregory Bateson [Option ID = 26260]

Correct Answer :-

- Margaret Mead and Gregory Bateson [Option ID = 26257]

62) Which rule explains that short extremities increase the ratio of mass and surface area and that cold adaptive forms have relatively shorter limbs? [Question ID = 14087]

1. Bergmann's rule [Option ID = 26346]
2. Thompson's rule [Option ID = 26347]
3. Gloger's rule [Option ID = 26348]
4. Allen's rule [Option ID = 26345]

Correct Answer :-

- Allen's rule [Option ID = 26345]

63) Which state in India has the largest tribal population? [Question ID = 14093]

1. Jharkhand [Option ID = 26372]
2. Madhya Pradesh [Option ID = 26369]
3. Rajasthan [Option ID = 26371]
4. Odisha [Option ID = 26370]

Correct Answer :-

- Madhya Pradesh [Option ID = 26369]

64) Which of the following site is famous for prehistoric rock painting? [Question ID = 14043]

1. Mehargarh in Baluchistan [Option ID = 26169]
2. Catal Huyuk in Turkey [Option ID = 26171]
3. Koobi Fora in Kenya [Option ID = 26172]
4. Altamira in Spain [Option ID = 26170]

Correct Answer :-

- Altamira in Spain [Option ID = 26170]

65) Which of the following features is not related to Harappan Civilization? [Question ID = 14048]

1. External Trade [Option ID = 26189]
2. Bullock Cart [Option ID = 26191]
3. Gold and Silver ornaments [Option ID = 26192]
4. Iron Technology [Option ID = 26190]

Correct Answer :-

- Iron Technology [Option ID = 26190]

66) Which of the following is not a matrilineal society? [Question ID = 14033]

1. Nuer [Option ID = 26132]
2. Ashanti [Option ID = 26131]
3. Khasi [Option ID = 26129]
4. Nayars [Option ID = 26130]

Correct Answer :-

- Nuer [Option ID = 26132]

67) Which of the following is not a religious specialist? [Question ID = 14036]

1. Conduit or medium [Option ID = 26143]
2. Individuals with skillful training, inherent talent [Option ID = 26142]
3. Individuals with heretic ideas [Option ID = 26144]
4. Individuals with more knowledge in religion than others [Option ID = 26141]

Correct Answer :-

- Individuals with heretic ideas [Option ID = 26144]

68) Which among the following is credited to Malinowski? [Question ID = 14063]

1. Participant Observation [Option ID = 26251]
2. Cultural relativism [Option ID = 26252]
3. Genealogy [Option ID = 26249]
4. Matrilineal puzzle [Option ID = 26250]

Correct Answer :-

- Participant Observation [Option ID = 26251]

69) Which among the following book is written by Verrier Elwin? [Question ID = 14066]

1. The Mundas and their country [Option ID = 26261]
2. Naga Path [Option ID = 26264]
3. Remembered village [Option ID = 26262]
4. The Baiga [Option ID = 26263]

Correct Answer :-

- The Baiga [Option ID = 26263]

70) Which film is considered to be the first ethnographic film ever made? [Question ID = 14064]

1. Nanook of the north [Option ID = 26254]
2. Axe fighting [Option ID = 26256]
3. Hunters [Option ID = 26255]
4. Forest of bliss [Option ID = 26253]

Correct Answer :-

- Nanook of the north [Option ID = 26254]

71) Victor Turner's characterization of a ritual process with pre-crisis and post-crisis phases is known as [Question ID = 14111]

1. Social drama [Option ID = 26443]
2. Social fact [Option ID = 26441]
3. Social rites [Option ID = 26442]
4. Social action [Option ID = 26444]

Correct Answer :-

- Social drama [Option ID = 26443]

72) A system which recognizes descent through only one parent, either father or mother is called [Question ID = 14097]

1. Unilineal descent [Option ID = 26385]
2. Double descent [Option ID = 26388]
3. Bilateral descent [Option ID = 26386]
4. Parallel descent [Option ID = 26387]

Correct Answer :-

- Unilineal descent [Option ID = 26385]

73) The head of *Australopithecus africanus* is [Question ID = 14100]

1. dolichocephalic [Option ID = 26398]
2. holocephalic [Option ID = 26399]
3. bronchocephalic [Option ID = 26397]
4. mesocephalic [Option ID = 26400]

Correct Answer :-

- dolichocephalic [Option ID = 26398]

74) The health-related beliefs, knowledge and practices of a cultural group [Question ID = 14115]

1. Ethnos [Option ID = 26460]
2. Ethnology [Option ID = 26457]
3. Ethnomedicine [Option ID = 26459]
4. Ethnoscience [Option ID = 26458]

Correct Answer :-

- Ethnomedicine [Option ID = 26459]

75) James Frazer divided magic into two general principles-

[Question ID = 14035]

1. Law of contact and Law of contagion [Option ID = 26139]
2. Law of similarity and Law of contagion [Option ID = 26137]
3. Law of similarity and Law of homeopathic [Option ID = 26140]
4. Law of imitative and Law of sympathetic [Option ID = 26138]

Correct Answer :-

- Law of similarity and Law of contagion [Option ID = 26137]

76) The driving force of evolution is [Question ID = 14022]

1. mutation [Option ID = 26085]
2. genetic drift [Option ID = 26087]
3. variation [Option ID = 26086]
4. natural selection [Option ID = 26088]

Correct Answer :-

- natural selection [Option ID = 26088]

77) The cranial index of *Homo erectus pekinensis* is [Question ID = 14106]

1. 72.8 [Option ID = 26423]
2. 71.4 [Option ID = 26422]
3. 72.1 [Option ID = 26424]
4. 73.5 [Option ID = 26421]

Correct Answer :-

- 73.5 [Option ID = 26421]

78) Caves in South Africa contain fossilized bone accumulations that some researcher suggest were the result of animal rather than early human behavior. The effects of animals on the formation of an archaeological site is an example of [Question ID = 14069]

1. C-transform [Option ID = 26273]
2. N-transform [Option ID = 26274]
3. Ethnographic analogy [Option ID = 26276]
4. The law of superposition [Option ID = 26275]

Correct Answer :-

79) Chemical composition of chromosome is [Question ID = 14057]

1. DNA and carbohydrates [Option ID = 26227]
2. DNA and proteins [Option ID = 26225]
3. DNA and lipids [Option ID = 26226]
4. Proteins and lipids [Option ID = 26228]

Correct Answer :-

- DNA and proteins [Option ID = 26225]

80) Durkheim's social analysis of conscience collective is called [Question ID = 14031]

1. Social current [Option ID = 26121]
2. Social injustice [Option ID = 26122]
3. Social structure [Option ID = 26124]
4. Social organization [Option ID = 26123]

Correct Answer :-

- Social current [Option ID = 26121]

81) Cro-Magnon, Grimaldi and Chancelade man belong to [Question ID = 14101]

1. Holocene epoch [Option ID = 26402]
2. Early Pleistocene epoch [Option ID = 26401]
3. Late Pleistocene epoch [Option ID = 26404]
4. Pliocene epoch [Option ID = 26403]

Correct Answer :-

- Late Pleistocene epoch [Option ID = 26404]

82) In population genetics the main subject matter is [Question ID = 14021]

1. certain variation which are more pronounced [Option ID = 26084]
2. gene pool of main species [Option ID = 26083]
3. gene pool of population [Option ID = 26081]
4. individual gene [Option ID = 26082]

Correct Answer :-

- gene pool of population [Option ID = 26081]

83) What are the states that fall under Sixth Schedule?

[Question ID = 14094]

1. Assam, Tripura, Meghalaya, Mizoram [Option ID = 26375]
2. Assam, Tripura, Meghalaya, Manipur [Option ID = 26373]
3. Assam, Meghalaya, Manipur, Mizoram [Option ID = 26376]
4. Assam, Tripura, Nagaland, Mizoram [Option ID = 26374]

Correct Answer :-

- Assam, Tripura, Meghalaya, Mizoram [Option ID = 26375]

84) La Chapelle-aux-Saints skeleton was found by [Question ID = 14026]

1. A. and J. Bouyssonie and L. Bardon [Option ID = 26102]
2. Louis Leakey and Mary Leakey [Option ID = 26101]
3. Marcellin Boule and Tim White [Option ID = 26104]
4. Robert Foley and Roger Lewin [Option ID = 26103]

Correct Answer :-

- A. and J. Bouyssonie and L. Bardon [Option ID = 26102]

85) Rhodesian man was discovered by [Question ID = 14025]

1. R. Dart [Option ID = 26100]
2. P. V. Tobias [Option ID = 26098]
3. T. White [Option ID = 26097]
4. T. Zwigelaar [Option ID = 26099]

Correct Answer :-

- T. Zwigelaar [Option ID = 26099]

86) The theoretical perspective that there is a direct causal relation between material forces and aspects of culture [Question ID = 14113]

1. Cultural determinism [Option ID = 26452]
2. Cultural relativism [Option ID = 26450]
3. Cultural materialism [Option ID = 26449]
4. Cultural responses [Option ID = 26451]

Correct Answer :-

- Cultural materialism [Option ID = 26449]

87) Who gave the term 'deep ecology'? [Question ID = 14089]

1. Julian Steward [Option ID = 26356]
2. Judith Butler [Option ID = 26354]
3. Arne Ness [Option ID = 26353]
4. Carol Merchant [Option ID = 26355]

Correct Answer :-

- Arne Ness [Option ID = 26353]

88) Hardy-Weinberg Equilibrium was formulated by G. Hardy and W. Weinberg in [Question ID = 14117]

1. 1909 [Option ID = 26468]
2. 1908 [Option ID = 26467]
3. 1906 [Option ID = 26465]
4. 1907 [Option ID = 26466]

Correct Answer :-

- 1908 [Option ID = 26467]

89) The specific position of gene on a chromosome is called [Question ID = 14082]

1. locus [Option ID = 26327]
2. allele [Option ID = 26325]

3. cistron [Option ID = 26326]
4. codon [Option ID = 26328]

Correct Answer :-

- locus [Option ID = 26327]

90) The parts of gene containing biological information are called [Question ID = 14081]

1. replication [Option ID = 26323]
2. transcription [Option ID = 26324]
3. exons [Option ID = 26322]
4. introns [Option ID = 26321]

Correct Answer :-

- exons [Option ID = 26322]

91) Site catchment analysis was done by [Question ID = 14071]

1. Libby [Option ID = 26281]
2. Vita Finzi and Higgs [Option ID = 26282]
3. Colin Renfrew and Bahn [Option ID = 26284]
4. R.E.M Wheeler [Option ID = 26283]

Correct Answer :-

- Vita Finzi and Higgs [Option ID = 26282]

92) Toba ash has been reported by

[Question ID = 14040]

1. Son valley [Option ID = 26157]
2. Tapti valley [Option ID = 26160]
3. Brahmaputra valley [Option ID = 26159]
4. Belan valley [Option ID = 26158]

Correct Answer :-

- Son valley [Option ID = 26157]

93) The Cro-Magnon man was found by

[Question ID = 14028]

1. Louis Lartet [Option ID = 26112]
2. Louis Leakey [Option ID = 26111]
3. Laslo Vertes [Option ID = 26110]
4. B. D. Van Rietschoten [Option ID = 26109]

Correct Answer :-

- Louis Lartet [Option ID = 26112]

94) The concept of Animism is credited to

[Question ID = 14091]

1. E.B. Tylor [Option ID = 26364]
2. Clifford Geertz [Option ID = 26363]
3. L.H. Morgan [Option ID = 26361]
4. Claude Levi-Strauss [Option ID = 26362]

Correct Answer :-

- E.B. Tylor [Option ID = 26364]

95) The earliest and the best documented evidence regarding change from semi-nomadic pastoral life towards settled agriculture comes from

[Question ID = 14041]

1. Kili Gul Mohammad [Option ID = 26161]
2. Mohenj-daro [Option ID = 26162]
3. Damb Sadaat [Option ID = 26164]
4. Mehargarh [Option ID = 26163]

Correct Answer :-

- Mehargarh [Option ID = 26163]

96) Name the anthropologist who wrote about India's sacred cattle. [Question ID = 14088]

1. Verrier Elwin [Option ID = 26351]
2. Marvin Harris [Option ID = 26349]
3. N. K. Bose [Option ID = 26352]
4. Haimendorf [Option ID = 26350]

Correct Answer :-

- Marvin Harris [Option ID = 26349]

97) Name the anthropologist who wrote about *Political Systems of Highland Burma* (1954) [Question ID = 14062]

1. Edmund Leach [Option ID = 26245]
2. Claude Levi-Strauss [Option ID = 26247]
3. Max Gluckman [Option ID = 26248]
4. Ursula Bower [Option ID = 26246]

Correct Answer :-

- Edmund Leach [Option ID = 26245]

98) A plant or animal associated with a clan as a means of group identification [Question ID = 14114]

1. None of these [Option ID = 26456]
2. Taboo [Option ID = 26453]
3. Totem [Option ID = 26454]
4. Tatoo [Option ID = 26455]

Correct Answer :-

- Totem [Option ID = 26454]

99) The concept of Kulturkreise (culture circles) was developed by [Question ID = 14059]

1. Friedrich Ratzel [Option ID = 26233]
2. Leo Frobenius [Option ID = 26235]
3. Wilhelm Schmidt [Option ID = 26236]
4. Fritz Grabner [Option ID = 26234]

Correct Answer :-

- Leo Frobenius [Option ID = 26235]

100) The concept of slash and burn is a typical example of which kind of cultivation? [Question ID = 14038]

1. Shifting cultivation [Option ID = 26150]
2. Terrace cultivation [Option ID = 26149]
3. Intensive cultivation [Option ID = 26152]
4. Wet cultivation [Option ID = 26151]

Correct Answer :-

- Shifting cultivation [Option ID = 26150]
