DIRECTIONS (Qs. 8-10) : *Read the following passage carefully and answer the questions given below it.*

Recently, a newspaper article mourned the total disappearance of the common house sparrow. This was a comment on the city's perceptible move towards edging out the flora and fauna of the city. In the rapid urbanization, multi-storied apartments

grew and large scale felling of trees became necessary. Last week, however, seven pairs of these sparrows were spotted in a suburb. Possibly the greenery of this place has created a new habitat for these birds which like their proximity to human beings, and have made a comeback. A systematic development of trees and shrubs all over the city could woo the absentee house sparrow to our midst.

8. In the passage the term "urbanisation" has been used to refer to
   (1) the destruction of the greenery in the city
   (2) construction of concrete structures on a large scale
   (3) a change over from the rural life to the city life
   (4) the movement of people from villages to cities

9. The phrase "absentee house sparrow" refers to
   (1) the sparrow that makes infrequent visits
   (2) the sparrow that has forgotten its habitat
   (3) the sparrow that has gone away from the urban areas
   (4) the sparrow that has become extinct 190.

10. According to the passage, the birds have made a comeback to the suburb because they

    (1) have been hunted down by the village people

    (2) Love to be amidst human beings

    (3) get food only where human beings live

    (4) they have been deliberately brought back by biologists.
