Read the passage carefully and answer question

Intelligence is associated with academic achievement by most people. The various theories of intelligence created by psychologists hold that there are two kinds of academic intelligence-verbal and mathematical or logical. Intelligence is an inherited trait that impacts individual behaviour and performance according to most experts. But, many research studies have revealed that the environment greatly impacts the development of intelligence. Since, one property of intelligence is analytical and reasoning skills, people with high intelligence quotient will understand the problem at hand better than people with a low IQ.

Many organizations consider intelligence as an important criterion while recruiting. For instance in many management schools, a lot of weightage is given to high IQ while admitting students or recruiting faculty members. The qualities of intelligent people are high energy drive, achievement and competitiveness. Very intelligent employees learn job – related skills and other organisational practices quickly and organisations have to spend less time training them. People with high intelligence have good decision making ability due to their good analytical and reasoning skills, with a high achievement drive, they are mostly by very productive. As the saying goes, 'A wise enemy is better than a foolish 'friend;

Even with such a high IQ very intelligent people may not always be very happy. The high IQ makes them dysfunctional leading to anxiety and depression. Generally speaking, people with at high intelligence quotient are often dissatisfied people.

अधिकांश लोग बुद्धि को शैक्षणिक उपलब्धि से सम्बन्धित करते हैं। मनोवैज्ञानिकों द्वारा दिए गए बुद्धि के विभिन्न सिद्धांतों में माना गया है कि अकादिमक बुद्धि के दो प्रकार होते हैं – शाब्दिक और गणितीय अधवा तार्किक। अधिकांश विशेषज्ञों के अनुसार बुद्धि वंशानुगत विशेष गुण होती है जो व्यक्तिगत व्यवहार और कार्य निष्पादन को प्रभावित करती है। परन्तु अनेक शोध अध्ययनों से यह पता चला है कि वातावरण बुद्धि के विकास को अत्यधिक रूप से प्रभावित करता है। चूंकि बुद्धि की एक विशेषता विश्लेषणात्मक और तर्कपरक कौशल है, उच्च बुद्धि-लब्धि (आई क्यू) वाले लोग अल्प बुद्धि-लब्धि वाले लोगों की तुलना में समस्या को बेहतर ढंग से समझेंगे।

बहुत से संगठन कर्मचारियों की भर्ती करते समय बुद्धि को एक महत्वपूर्ण मानदंड मानते हैं। उदाहरणार्थ, अनेक मैनेजमेण्ट स्कूलों में विद्यार्थियों के प्रवेश और शिक्षकों की भर्ती में बुद्धि लब्धि (आई क्यू) पर काफी बल दिया जाता है। बुद्धिमान व्यक्तियों की विशेषता अति ऊर्जा आवेग, उपलब्धि और प्रतिस्पर्धात्मकता होती है। काफी बुद्धिमान कर्मचारी कार्य में संबंधित कौशल और अन्य संगठनात्मक पद्धितयों को शीघ्रता से सीखते हैं तथा संगठन को उन्हें प्रशिक्षित करने में अपेक्षाकृत कम समय लगता है। उच्च बुद्धिमत्ता वाले लोगों में अच्छी विश्लेषणात्मक और तार्किक कौशल होने के कारण उनमें निर्णय- लेने की अच्छी क्षमता होती है। उच्च उपलब्धि की ललक के साथ, ये लोग अधिकांशतः काफी सृजक होते हैं। जैसा कि कहावत है कि 'किसी मूर्ख मित्र की तुलना में बुद्धिमान शत्रु बेहतर है।'

ऐसी उच्च बुद्धि-लिब्ध (आई क्यू) के बावजूद बहुत बुद्धिमान लोग हमेशा अति प्रसन्न नहीं हो सकते हैं। उच्च बुद्धि-लिब्ध उन्हें निष्क्रिय बना देती है जिसकी परिणित उनकी चिंता और नैराश्य के रूप में होती है। आम तौर पर कहा जाता है कि उच्च बुद्धि-लिब्ध वाले लोग प्रायः असंतुष्ट लोग होते हैं।
