- 59. Principle:** In order to be eligible to appear in the semester examination, a student is required to attend, under all circumstances, at least 70% of the total classes held in that semester as per University rules.

FACTS: Sunil, an economically poor but a very brilliant student of L.L.B. final semester while going to his University by cycle received some leg injuries in road accident. Consequently Sunil could not attend his classes for one week as he was advised rest by his doctor for that period. Due to this absence from the University, Sunil failed to have 70% attendance essential to appear in the examination and therefore, he was debarred from appearing in the examination by the University authorities. Sunil challenges this decision in the court of law.

- (1) Sunil will succeed in the court of law as the accident was beyond his control
- (2) Sunil will definitely get favour of the court on humanitarian ground as he comes from a economically poor family and may not afford to take readmission.
- (3) Sunil will not succeed as he could very easily fulfil eligibility criteria for appearing in the examination by being reasonably regular in the class throughout the semester.
- (4) Sunil will succeed as requirement of 70% attendance may be declared arbitrary and therefore, unreasonable by the court of law.

60. Principle: All citizens shall have the fundamental right to carry on any occupation, trade or business. But reasonable restrictions on the exercise of such rights can be imposed by law in the interest of the general public.

FACTS: A large number of persons had been carrying on the business of dyeing and printing in Rajkot area for the last 25 years providing employment to about 30,000 families. From these business places untreated dirty water was being discharged on the roads thereby causing damage to the public health. A notice, therefore was given to close this business till necessary measures to protect public health as provided under the environmental statutes were taken by those businessmen.

- (1) Notice cannot be justified as it will cause loss of employment to 30,000 families.
- (2) Notice cannot be justified as it amounts to violation of the fundamental right of the persons who have been carrying on the business for the last 25 years.
- (3) The notice can not be justified on the ground of damage to public health as the persons in that area have been voluntarily residing for long and have become used to that environment.
- (4) The notice can be justified as the right to business is not absolute and reasonable restriction can be imposed by law in the interest of the public.

61. Principle: Whosoever by his act or omission causes environmental pollution shall be held liable for any loss caused by such pollution. It shall be no defence in such cases that all due diligence or reasonable care was taken while carrying out the act or omission in question.

In order to prevent and control any kind of harm to the environment, suitable waste treatment and disposal plants were installed in the factory. Victims of such pollution file a suit for suitable remedy.

- (1) Victims cannot succeed as necessary precautions to prevent any harm were taken by Ashish.
- (2) Victims cannot succeed as the mechanical/technical problem was sudden and, therefore, beyond the control of Ashish.
- (3) Victims can succeed as it is the duty of Ashish to see that no harm is caused to the environment/people due to his activity under any circumstances.

- (1) Sunita can succeed in getting damages as Sagar has deceived her
- (2) Sagar cannot be held liable as he honestly believes that his love for Sunita is true and therefore, he will succeed in his endeavour.

PASSAGE

There is more than modicum of truth in the assertion that "a working knowledge of ancient history is necessary to the intelligent interpretation of current events". But the sage who uttered these words of wisdom might well have added something on the benefits of studying, particularly, the famous battles of history for the lesson they contain for those of us who lead or aspire to leadership. Such a study will reveal certain qualities and attributes which enabled the winners to win and certain deficiencies which caused the losers to lose. And the student will see that the same patterns recur consistently, again and again, throughout the centuries.

- 94.** A person who aspires to lead could learn from the history of battles

- (1) They have roots in the past
 - (2) They can be contrasted with the past events
 - (3) They may be repetition of past events
 - (4) Only then they can be put in a proper context

PASSAGE

The strength of the electronics industry in Japan is the Japanese ability to organize production and marketing rather than their achievements in original research. The British are generally recognized as a far more inventive collection of individuals, but never seem able to exploit what they invent. There are many examples, from the TSR Z hovercraft, high speed train and Sinclair scooter to the Triumph, BSA and Norton Motorcycle which all prove this sad rule. The Japanese were able to exploit their strengths in marketing and development many years ago, and their success was at first either not understood in the West or was dismissed as something which could have been produced only at their low price. They were sold because they were cheap copies of other people's ideas churned out of workhouse which was dedicated to hard grind above all else.

98. The sad ruled mentioned in this passage refers to:
- (1) The inability of the Japanese to be inventive like the British
 - (2) The inability of the British to be industrious like the Japanese
 - (3) The lack of variety in Japanese inventions
 - (4) The poorer marketing ability of British

15U/117/5(i)

PASSAGE

The study published in the journal Science, aims to give a global overview of Earth's temperatures over the past 11,300 years- a relatively **balmy** period known as the Holocene that began after the last major ice age ended and encompasses all of recorded human civilization.

Scientists say it is further evidence that modern-day global warming isn't natural, but the result of rising carbon dioxide emissions that have rapidly grown since the industrial Revolution began roughly 250 years ago. Scientists say that if natural factors were still governing the climate, the Northern Hemisphere would probably be destined to freeze over again in several thousand years. Instead, scientists believe the enormous increases in greenhouse gases caused by industrialization will almost certainly **prevent** that.

It's taken just 100 years for the average temperature to change by 1.3 degrees, when it took 5,000 years to do that before. By the end of the century, climate warming models predict an additional increase of 2 to 11.5 degrees, due largely to carbon emissions, the study noted.

102. 'Balmy' means :

- (1) Cool (2) Warm (3) Hot (4) Cold

103. The Earth's temperature has increased quickly since :

- (1) The Holocene (2) The Northern Hemisphere
(3) The Industrial Revolution (4) 1,500 years ago

104. 'Prevent' means :

- (1) Encourage (2) Stop
(3) Slow (4) Complete

105. The average temperature of the Earth has changed with a
Pace :

- (1) Very slow (2) Slow

106. **Principle:** Proposal must be made known. If one does not know of the proposal, there is no acceptance and if there is no acceptance, there is no contract.

After the servant had left 'X' advertised by printed handbills and promised to give a prize of Rs. 40,000/- to the person who would find out his son. 'Y' did not know of this. He found out the lost son of 'X' and demanded the prize.

- (1) 'Y' is not entitled to the prize
(2) 'Y' is entitled of the prize
(3) What 'Y' did was acceptance of the proposal by doing an act
(4) Both (2) and (3)

15U/117/5(i)

107. Principle: Where both parties to an agreement are under a mistake as to a matter of fact essential to the agreement, the agreement is void.

- (4) Both (1) and (3)

108. Principle: Contingent contract to do anything if an uncertain future event happens cannot be enforced by law unless and until that event has happened.

Fact: 'A' makes a contract with 'B' to buy house of 'B' if A survives 'C'. This contract cannot be enforced by law unless and until.

- (1) 'C' permits 'A' to buy the house
- (2) 'A' kills 'C'
- (3) 'B' kills 'C'
- (4) 'C' dies in A's lifetime

109. Principle: Nothing is an offence which is done by a person who is, or who by reason of a mistake of fact and not by reason of a mistake of law in good faith believes himself to be, bound by law to do it.

Fact: 'A' an officer of a Court of law, being ordered by the Court to arrest 'Y' and after due enquiry, believing 'Z' to be 'Y', arrests 'Z'.

- (1) 'A' has committed an offence
- (2) 'A' has committed no offence
- (3) 'A' and 'Y' both have committed offence
- (4) 'Z' has committed offence

110. Principle: When an act which would otherwise be a certain offence, is not that offence, by reason of the unsoundness of mind of the person doing that act, every person has the same right of private defence against that act which he would have if the act were that offence.

Fact: Z, Under the influence of madness, attempts to kill A.

- (1) Z is guilty of offence
- (2) A has the same right of private defence which he would have if Z were sane.
- (3) A does not have the same right of private defence which he would have if Z were sane

Fact: 'A' a tradesman leaves goods at B's house by mistake. 'B' treats the goods as his own and uses it. Is 'B' bound to pay 'A'?

- (1) No, because 'B' never asked 'A' to leave the goods

- (3) No, because 'A' leaves the goods at B's house due to his own mistake
- (4) Both (1) and (3)

113. Principle: Violation of Legal Right, with or without damage gives rise to a tort -

Fact: 'A' establishes a coaching class and charge Rs. 5000 per year as fees. A's neighbour 'B' establishes another coaching class there by creating a competition. This forces A to reduce his fees to Rs. 3000 per year.

Can 'A' claim damage from 'B' for the loss caused to him?

- (1) Yes, he can as 'B' has violated his legal Right
- (2) No, A has reduced the fees on his own
- (3) No, because though there was damage there was no legal injury
- (4) None of the above.

The cashier inspects the note and realizes that it is counterfeit. He calls the police.
