WEST BENGAL

Global Summit on Supply Chain Resilience

15th & 16th May, 2021

About the Global Summit

The world has witnessed supply chain collapses during the COVID-19 pandemic. Supply Chain practitioners and researchers across the globe are now engaged in exploring ways and means to suggest overhauling of the traditional supply chains and the business models to evolve robust and resilient supply chains for the future which shall be capable of handling such Black Swan events. As we are limping back to the new normal, it was felt necessary to bring practitioners and the researchers in a common platform to deliberate on this most crucial subject which may make or break the future economy of the world and evolve set of recommendations for the supply chain innovators, researchers and the policy makers. This two day summit shall witness many such exciting deliberations as well as a unique competition amongst young supply chain professionals and researchers who shall be showcasing their success stories which had helped their respective organizations combat supply chain crises during the period of the pandemic .

About Techno India University West Bengal

Techno India, West Bengal is a fast rising educational entity in the academic sector, with its mission to create a flow of quality human resources that is capable of meeting and successfully overcoming the global challenges of tomorrow and contribute effectively to global developments, with knowledge at the forefront and in the background as the most potent tool. TIU is a Pioneer of the 'Inspired Learning' approach to higher education. Its academic delivery model goes beyond classroom education to provide holistic learning experience for students. Techno India group, The Largest Education Group in Asia encompasses 100 Knowledge Campuses with 4 Universities, 22 Engineering colleges, 2 Upcoming Medical College, 12 Business Schools & 18 Public Schools.
