## RBI ASSISTANT Exam

Mains (English) Previous Paper

# Simplifying Government Exams

### RBI Assistant Mains - Previous Year Solved Paper

Held on: 1st Aug 2015 (Based on Memory)

#### Test-I: English Language

Directions (Q. 1-8): Read the following passage and answer the given questions. Certain words/phrases are given in bold to help you locate them while answering some of the questions.

One day, a farmer was hoeing his vineyard when he struck something hard. He bent over and saw that he had unearthed a fine mortar beautifully engraved. When he cleared the dirt of it he saw it was made of solid gold. 'I do not own it, I ought to give it to the king.' he said. When he went home with the fine mortar he saw his daughter and announced his intention of presenting it to the king. 'It is a good idea, father,' she said. 'It is worthy of a king but the king will find fault with it since something is missing - the pestle.' The farmer shrugged off her words and marched straight to the king's palace. The guards weren't going to let him in but seeing the wonderful gift, they did. The farmer bowed low before the king and said, 'I found this mortar in my vineyard, your Majesty, and I am giving it to you to do with it as you deem fit.' The king took the mortar and turned it around, examining it carefully and said, 'Where is the pestle, my dear man?' These were his daughter's words exactly and the farmer slapped his brow and exclaimed out loud, 'She guessed it!' 'Guessed what?' said the king. 'My daughter told me that you would say those words and I refused to believe her.' 'This daughter of yours must be very clever. Take this flax and tell her to make the shirts for a whole regiment of soldiers. But tell her to do it quickly since I need the shirts right now.' The farmer was stunned. But he did not argue with the king and picked up the bundle which contained only a few measly strands of flax and set out for home. 'My daughter,' he said, when he reached home, 'you really are in for it.' And he told her what the king had said. 'You get upset over nothing,' said his daughter. 'Give me the flax.' And taking it, she shook it out until a few scales from the flax fell onto the floor - hardly a handful. The farmer's daughter gathered those up and gave them to her father, 'Go to the king tomorrow and tell him I will make the shirts but since I have no loom to weave the cloth I will have to have one made for me with this handful of scales to carry out his order to the letter.' The farmer did not have the nerve to go back to the king with this reply but he did fearing for his daughter's life. The king was eager to meet the farmer's daughter on hearing the reply she sent through her father and said, 'Tell your daughter to come to the palace when it is neither day nor night, neither on foot nor on horseback. She is to obey on both these conditions or both your head and hers will rol'. The farmer arrived home in the lowest of spirits. But his daughter told him not to worry. She rose and set out for the palace seated on a nanny goat with one foot touching the ground and the other off it. She managed to reach the palace after the difficult journey just as dawn was breaking (neither day nor night completely). The guards were reluctant to let her in but learning that the king had commanded it, they finally did. 'Your Majesty, I am here in compliance with your order,' she said. The king burst into laughter on seeing the girl and announced that she was worthy of being a ruler's wife. He married her and they ruled in wisdom.

- Which of the following cannot replace the word STRUCK as used in the passage?
  - 1) discovered
- 2) uncovered
- 3) attacked

- 4) stumbled on
- 5) turned up
- 2. What impact did the farmer's encounters with the king have on his (the king's) life?
  - 1) The king stopped harassing his subjects.
  - 2) The king got married.
  - The king gave up his throne to marry the farmer's daughter.
  - 4) The king gained fine ornaments and clothes for his soldiers.
    - 5) The king was humiliated by the farmer's daughter and he left the kingdom.
- 3. Which of the following is most nearly the OPPOSITE of the word NERVE as used in the passage?
  - 1) calm
- 2) anger
- 3) demotivated

- 4) tearfulness
- 5) boldness
- Why did the farmer utter the words, 'You really are in for it'?
  - He was conveying to his daughter the king's desire to marry her.
  - He was angry with his daughter for disagreeing with him.
  - He was upset because his daughter refused to weave the clothes as the king had ordered her to.
  - 4) He did not see how his daughter could accomplish the seemingly impossible task set by the king.
  - He was feeling sorry for himself as his daughter was bullying him.

Seven friends namely T, U, V, W, X, Y and Z are standing in a straight line facing north, but not necessarily in the same order. U stands exactly in the centre of the line. Only one person stands between U and T. Only one person stands between Z and W. Z stands neither on the immediate left nor on the 167. Four of the following five form a group as per the given arrangement. Which of the following does not belong to that group?

immediate right of U. X stands second to the right of Y. V stands on the immediate right of Z.

I)XY

2) ZW

3) YW

4)TV

5) UT

3) First

168. What is the position of X with respect to U?

1) Third to the right

2) Immediate right

3) Third to the left

4) Immediate left

5) Second to the left

169. Which of the following is TRUE regarding V?

1) V stands at one of the extreme ends of the line.

2) V stands second to the left of Y.

3) Only one person stands between V and U.

4) Only two persons stand between V and W.

5) T is one of the immediate neighbours of V.

170. Which of the following represents the position of W from the right end of the line?

1) Second

2) Third

5) Sixth 4) Fifth 171. Which of the following pairs stand at the extreme ends of the line?

4) V, X 5) T, X 3) Y, Z 1) V, Y 2) Z, X How many such pairs of letters are there in the word 'PROHIBITS' each of which has as many letters between them (in both forward and backward directions) as they have between them in the English alphabetical series?

1) More than three

2) Three

3) Two

4) One

5) None

Directions (Q. 173-174): Study the following information and answer the given questions.

Each of the five friends, F, G, H, I and J has a different height. H is taller than both I and G but shorter than J. J is not the tallest. G is not the shortest. The tallest of them all is 172 cm tall and the second shortest is 160 cm tall.

173. Which of the following is true with respect to the given arrangement?

1) I is the third tallest among them.

2) Only one person is taller than F.

3) None of the given options is true

4) H's height is 160 cm.

5) F's height is definitely more than 160 cm.

174. H's height is 8 cm more than G's height. Which of the following can be H's height?

1) 165 cm

2) 172 cm

3) 150 cm

4) 168 cm

5) 170 cm

Directions (Q. 175-179): In each question, two/three statements followed by two conclusions numbered I and II have been given. You have to take the given statements to be true even if they seem to be at variance with the commonly known facts and then decide which of the given conclusions logically follows from given statements disregarding commonly known facts.

175. Statements:

All keys are locks.

Some locks are irons.

Conclusions: L All keys are irons.

IL Some irons are definitely not keys.

1) Both conclusion I and II are true.

Neither conclusion I nor II is true.

3) Either conclusion I or II is true.

Only conclusion I is true.

Only conclusion II is true.

176. Statements: All instructions are manuals.

All manuals are rules.

Conclusions: I. All instructions are rules.

II. All manuals are instructions.

Only conclusion II is true.

2) Neither conclusion I nor II is true.

3) Either conclusion I or II is true.

4) Only conclusion I is true.

Both conclusion I and II are true.

184 If the given words are arranged in the order as they

appear in a dictionary from left to right, the position of

which of the following words will remain unchanged?

1) None

4) Three

1) Four

177. Statements:

Some cards are papers

All papers are books.

II. No novel is a card.

No book is a novel.

Conclusions: I. At least some cards are books.

- 4) Only conclusion I is true.
- 5) Only conclusion II is true.
- 192 Statements:

 $P \le A \le R = K; S \ge J \ge R$ 

Conclusions:

I.P<J

II.S≥K

- 1) Both conclusion I and II are true.
- 2) Either conclusion I or II is true.
- 3) Neither conclusion I nor II is true.
- 4) Only conclusion I is true.
- 5) Only conclusion II is true.
- 193 Statements:

 $P \le A < R = K; S \ge J \ge R$ 

Conclusions:

I.A>J

II.S>P

- 1) Neither conclusion I nor II is true.
- 2) Both conclusion I and II are true.
- 3) Either conclusion I or II is true.
- 4) Only conclusion I is true.
- 5) Only conclusion II is true.
- 194. Statement:

 $P < A > S \ge T = F < D$ 

Conclusions:

I. T≥P

II.D>S

- 1) Both conclusion I and II are true.
- 2) Neither conclusion I nor II is true.
- 3) Only conclusion II is true.
- 4) Only conclusion I is true.
- 5) Either conclusion I or II is true.
- 195. Statements:

 $O < P \ge T > S; P \le N < L$ 

Conclusions:

I.N>S

II.O>L

- 1) Either conclusion I or II is true.
- 2) Neither conclusion I nor II is true.
- 3) Both conclusion I and II are true.
- 4) Only conclusion I is true.
- 5) Only conclusion II is true.

Directions (Q. 196-200): Study the following information and answer the given question.

Eight friends M, N, O, P, Q, R, S and T live on eight

different floors of a building but not necessarily in the same order. The lowermost floor of the building is numbered one, the one above that is numbered two and so on till the topmost floor is numbered eight.

Q lives on an odd-numbered floor but not on the floor numbered 7. T lives immediately below Q. Only three people live between T and M. O lives on an even-numbered floor immediately above S. Only two people live between N and R. N lives on one of the floors above R. P does not live on the floor numbered 5.

196. Who lives exactly between the floors on which T and O live?

1)M 2)R

3)P

5)S

197. Who amongst the following lives on the floor numbered 5?

1)Q 2) N

3)R

4) M

4)Q

5)S

198. Which of the following is true about N as per the given arrangement?

1) S lives on one of the floors above N.

- 2) Only two people live between N and Q.
- 3) N lives on the topmost floor.
- 4) N lives immediately below P.

5) All the given statements are true

199. If M and S interchange their positions and so do P and T, who amongst the following will live between T and Q as per the new arrangement?

1) No one

2) Both S and P

3) Only N

4) Both R and M 5) Only M

200. Four of the following five are alike as per the given arrangement and thus form a group. Which of the following does not belong to that group?

1)NR

2)QO

3) TP

4) QM

5) TR
