Marking Scheme Strictly Confidential (For Internal and Restricted use only) Senior School Certificate Examination,2024

ECONOMICS (SUBJECT CODE - 030)

(PAPER CODE - 58/1/1)

General Instructions: -

1 You are aware that evaluation is the most important process in the actual and correct assessment of the candidates. A small mistake in evaluation may lead to serious problems which may affect the future of the candidates, education system and teaching profession. To avoid mistakes, it is requested that before starting evaluation, you must read and understand the spot evaluation guidelines carefully. "Evaluation policy is a confidential policy as it is related to the confidentiality of 2 the examinations conducted, Evaluation done and several other aspects. Its' leakage to public in any manner could lead to derailment of the examination system and affect the life and future of millions of candidates. Sharing this policy/document to anyone, publishing in any magazine and printing in News Paper/Website etc may invite action under various rules of the Board and IPC." 3 Evaluation is to be done as per instructions provided in the Marking Scheme. It should not be done according to one's own interpretation or any other consideration. Marking Scheme should be strictly adhered to and religiously followed. However, while evaluating, answers which are based on latest information or knowledge and/or are innovative, they may be assessed for their correctness otherwise and due marks be awarded to them. In Class XII, while evaluating competency-based questions, please try to understand given answer and even if reply is not from marking scheme but correct competency is enumerated by the candidate, due marks should be awarded. 4 The Marking scheme carries only suggested value points for the answers. These are in the nature of Guidelines only and do not constitute the complete answer. The students can have their own expression and if the expression is correct, the due marks should be awarded accordingly. The Head-Examiner must go through the first five answer books evaluated by each 5 evaluator on the first day, to ensure that evaluation has been carried out as per the instructions given in the Marking Scheme. If there is any variation, the same should be zero after delibration and discussion. The remaining answer books meant for evaluation shall be given only after ensuring that there is no significant variation in the marking of individual evaluators. Evaluators will mark($\sqrt{}$) wherever answer is correct. For wrong answer CROSS 'X" be 6 marked. Evaluators will not put right (\checkmark) while evaluating which gives an impression that answer is correct and no marks are awarded. This is most common mistake which evaluators are committing.

7	If a question has parts, please award marks on the right-hand side for each part. Marks awarded for different parts of the question should then be totaled up and written in the left-hand margin and encircled. This may be followed strictly.
8	If a question does not have any parts, marks must be awarded in the left-hand margin and encircled. This may also be followed strictly.
9	If a student has attempted an extra question, answer of the question deserving more marks should be retained and the other answer scored out with a note "Extra Question".
10	No marks to be deducted for the cumulative effect of an error. It should be penalized only once.
11	A full scale of marks 80 has to be used. Please do not hesitate to award full marks if the answer deserves it.
12	Every examiner has to necessarily do evaluation work for full working hours i.e., 8 hours every day and evaluate 20 answer books per day in main subjects and 25 answer books per day in other subjects (Details are given in Spot Guidelines).
13	 Ensure that you do not make the following common types of errors committed by the Examiner in the past:- Giving more marks for an answer than assigned to it. Wrong totaling of marks awarded on an answer. Wrong transfer of marks from the inside pages of the answer book to the title page. Wrong question wise totaling on the title page. Leaving answer or part thereof unassessed in an answer book. Wrong totaling of marks of the two columns on the title page. Wrong grand total. Marks in words and figures not tallying/not same. Wrong transfer of marks from the answer book to online award list. Answers marked as correct, but marks not awarded. (Ensure that the right tick mark is correctly and clearly indicated. It should merely be a line. Same is with the X for incorrect answer.) Half or a part of answer marked correct and the rest as wrong, but no marks awarded. While evaluating the answer books if the answer is found to be totally incorrect, it should be marked as cross (X) and awarded zero (0)Marks.
15	Any un assessed portion, non-carrying over of marks to the title page, or totaling error detected by the candidate shall damage the prestige of all the personnel engaged in the evaluation work as also of the Board. Hence, in order to uphold the prestige of all concerned, it is again reiterated that the instructions be followed meticulously and judiciously.
16	The Examiners should acquaint themselves with the guidelines given in the "Guidelines for spot Evaluation" before starting the actual evaluation.
17	Every Examiner shall also ensure that all the answers are evaluated, marks carried over to the title page, correctly totaled and written in figures and words.
18	The candidates are entitled to obtain photocopy of the Answer Book on request on payment of the prescribed processing fee. All Examiners/Additional Head Examiners/Head Examiners are once again reminded that they must ensure that evaluation is carried out strictly as per value points for each answer as given in the Marking Scheme.

MARKING SCHEME

Senior Secondary School Examination 2024 ECONOMICS (Subject Code–030) [Paper Code : 58/1/1]

Maximum Marks: 80

Q.	EVDECTED ANGWED / VALUE DOINTS	Marks
No.	EXPECTED ANSWER / VALUE POINTS	
	SECTION -A	
	(Macro Economics)	I
1.	Read the following statements carefully:	
	Statement 1: If in an economy the level of income increases (ΔY), it will always	
	proportionately increase the level of consumption (ΔC).	
	Statement 2: Marginal Propensity to Consume (MPC) and Marginal Propensity to Save	
	(MPS) are always equal to each other.	
	In the light of the given statements, choose the correct alternative from the following:	
	(A) Statement 1 is true and Statement 2 is false.	
	(B) Statement 1 is false and Statement 2 is true.	
	(C) Both Statements 1 and 2 are true.	
	(D) Both Statements 1 and 2 are false.	1
2.	Ans. (D) Both Statements 1 and 2 are false. Identify the correct equation from the following:	1
2.		
	(A) $GDP_{MP} = NNP_{FC} + Depreciation$ (B) $NDP_{FC} = NNP_{FC} + Net Indirect Taxes$	
	(C) $\text{GNP}_{MP} = \text{GDP}_{MP} + \text{Net Factor Income from Abroad}$	
	(C) $ONP_{FC} = NDP_{MP} + Depreciation$ (D) $NNP_{FC} = NDP_{MP} + Depreciation$	
	Ans. (C) GNP _{MP} = GDP _{MP} + Net Factor Income from Abroad	1
3.	Read the following statements - Assertion (A) and Reason (R). Choose the correct alternative	-
5.	given below:	
	Assertion (A): Full employment situation refers to absence of involuntary unemployment.	
	<i>Reason</i> (R): Under full employment situation, all the willing and able bodied people get	
	employment at the prevailing wage rate.	
	Alternatives:	
	(A) Both Assertion (A) and Reason (R) are true and Reason (R) is the correct explanation of	
	Assertion (A).	
	(B) Both Assertion (A) and Reason (R) are true, but Reason (R) is <i>not</i> the correct explanation	
	of Assertion (A).	
	(C) Assertion (A) is true, but Reason (R) is false.	
	(D) Assertion (A) is false, but Reason (R) is true.	
	Ans. (A) Both Assertion (A) and Reason (R) are true and Reason (R) is the correct	1
	explanation of Assertion (A).	
4.	"As per the National Stock Exchange (NSE) data, dated 9 th June, 2023, there was a net selling	
	off worth ₹ 309 crore by Foreign Institutional Investors (FIIs) over the period of one month	
	i.e., 9 th May, 2023 - 9 th June, 2023."	
	The above mentioned transactions will be recorded on side of	
	account of Balance of Payments of India. (Choose the correct alternative to fill in the blanks)	
	(A) Debit, Current (B) Credit, Capital	
	(C) Credit, Current (D) Debit, Capital	
	Ans. (D) Debit, Capital	1

5.	Identify the <i>incorrect</i> feature(s) of money supply (M ₁) from the following: (i) It is measured at a point of time.					
	.,	-	hald by the governmen	t		
	(ii) It does not include stock of money held by the government.					
	(iii) It is always the currency in the hands of the Central Bank of a nation. Alternatives:					
	(A) (i) and (ii)		(B) (ii) and	(iii)		
	(\mathbf{C}) (ii) only		(D) (ii) and (D) (iii) on			
	Ans. (D) (iii) only		(D) (III) 0II	1y	1	
6.		vnanditura by hous	aholde under Kovnosie	n Economics is a combination	1

(b)	Discuss the likely consequence on money supply if the rate setting panel would have decreased the said rate.	
	Ans. If the rate setting panel would have decreased the benchmark lending rate, the commercial banks may reduce their lending rates. Consequently, it may encourage the borrowings by the general public leading to an increase in the money supply in the economy.	2
		4
16. (a)	Classify the following as Revenue receipts or Capital receipts. Give valid arguments in support of your answer:(i) Interest received on loan.(ii) Disinvestment receipts from the sale of a government company.	
	(iii) Financial assistance by the Government of USA for promoting girl education in India.	
	Ans.	
	(i) Interest received on loan is a revenue receipt because it neither creates any liability nor causes a reduction in assets of the government.	2
	(ii) Disinvestment receipts from sale of a government company are capital receipts as it causes a reduction in assets of the government.	2
	(iii) Financial assistance by the Government of USA for promoting girl education in India is a revenue receipt as it neither creates any liability nor causes a reduction in assets of the government.	2
	OR	6
(b)	Study the following chart carefully and analyse the changing trends in the government	
(i)	expenditure on:	
	(I) Transport	
	(II) Rural Development TREND OF MAJOR ITEMS OF EXPENDITURE	
	(# lakh crore)	
	5.50 5.00 4.50 4.00 5.00 4.00 5.00 5.00 4.00 5.00 5.00 4.00 5.00	
	(I) Transport: The expenditure on transport accounted for ₹ 3.32 lakh crore in the year	2
	2021-22. In the year 2022-23, a Revenue expenditure of ₹ 3.90 lakh crore was allocated for this sector. Out of the total budget expenditure of the year 2023-24, ₹ 5.17 lakh crore was allocated to transport.	2
	(II) Rural Development: In the year 2021-22, the expenditure on rural development accounted for ₹ 2.29 lakh crore. In the year 2022-23, of the total revenue expenditure ₹ 2.43 lakh crore was allocated for rural development. ₹ 2.38 lakh crore was allocated for the development of rural sector from the total budget expenditure in the year 2023-24.	2
(ii)	Distinguish between 'fiscal deficit' and 'revenue deficit'. Ans. Fiscal deficit refers to excess of the government's total expenditure over its total receipts excluding borrowing for a fiscal year.	1

			Whereas;			
	Revenue Deficit r receipts for a fisc		cess of governme	nt's revenue expo	enditure over revenue	1

	Ans. (A) Both Assertion (A) and Reason (R) are true and Reason (R) is the correct explanation of Assertion (A).	1			
23.	Read the following statements- Assertion (A) and Reason (R). Choose the correct alternative given below:				
	<i>Assertion (A):</i> China has used the market mechanism to create additional social and economic opportunities for its citizens.				
	<i>Reason (R):</i> Social infrastructure creation by the government has brought positive results in human development indicators in China. Alternatives:				
	(A) Both Assertion (A) and Reason (R) are true and Reason (R) is the correct explanation of Assertion (A).				
	(B) Both Assertion (A) and Reason (R) are true, but Reason (R) is <i>not</i> the correct explanation of Assertion (A).				
	(C) Assertion (A) is true, but Reason (R) is false.(D) Assertion (A) is false, but Reason (R) is true.				
	Ans. (B) Both Assertion (A) and Reason (R) are true, but Reason (R) is not the correct	1			
	explanation of Assertion (A)				
24.	Identify from the following alternatives the <i>incorrect</i> objectives of regulated agriculture market:				
	(i) To make the marketing system efficient and effective for farmers to get best price of their products.				
	(ii) To discourage improvement of marketing infrastructure for farmers.(iii) To prevent exploitation of farmers.				
	(iv) To discourage farmers from improving quality and quantity of their produce. Alternatives:				
	(A) (i) and (ii) (B) (i) and (iii)				
	(C) (iii) and (iv) (D) (ii) and (iv)				
	Ans. (D) (ii) and (iv)	1			
25.	Economic reforms were introduced in India and Pakistan in the years and				
	, respectively. (Choose the correct alternative to fill in the blanks)				
	(A) 1988, 1978 (B) 1991, 1978 (D) 1991 1991				
	(C) 1991, 1988 (D) 1981, 1991 (D) 1981, 1991	1			
26.	Ans. (C) 1991, 1988 Read the following statements carefully:	1			
20.					
	<i>Statement 1:</i> As per the National Sample Survey Organization (NSSO), unemployment is a situation in which all those who, owing to lack of work, are not working, but are seeking				
	work from prospective employers. They express their willingness/availability to work under				
	the prevailing conditions of work and remuneration.				
	Statement 2: Disguised Unemployment is generally a massive problem in a highly populated				
	country like India.				
	In the light of the given statements, choose the correct alternative from the following :				
	(A) Statement 1 is true and Statement 2 is false.(B) Statement 1 is false and Statement 2 is true.				
	(C) Both Statements 1 and 2 are true.				
	(D) Both Statements 1 and 2 are false.				
	Ans. (C) Both Statements 1 and 2 are true.	1			
27.	Identify which of the following is <i>not</i> a member nation of G20:	-			

	(A) Brazil	
	(B) Australia	
	(C) Bangladesh	
	(D) Argentina	
	Ans. (C) Bangladesh	1
8.	"During the colonial period, the occupational structure showed lopsided movements."	
a)	Do you agree with the given statement? Justify your answer with valid arguments.	
	Ans. Yes. The occupational structure during the colonial period showed lopsided	
	movements as:	
	• Parts of Madras Presidency, Bombay and Bengal witnessed a decline in the	3
	dependence of the workforce on the agricultural sector with a commensurate increase	
	in the manufacturing and the services sectors.	
	• There had been an increase in the share of workforce in agriculture in states such as	
	Orissa, Rajasthan and Punjab. (To be marked as a whole)	
	OR	
b)	Elaborate the reasons owing to which the private sector was regulated under the Industrial	
	Policy Resolution, 1956.	
	Ans. The Industrial Policy Resolution, 1956 regulated the private sector through a	
	system of licenses. This policy aimed at achieving regional equality. The government	
	made it relatively easier to obtain an industrial license, for industrial units to be	3
	established in economically backward areas.	
	Moreover, to ensure judicious use of resources owned by the private sector, licenses	
	were needed for expanding/diversifying output by existing industrial units.	
0	(To be marked as a whole)	
29.	"In India, National Education Policy 2020 has stressed a lot on in-service training of the teachers."	
i)	Identify the source of Human Capital Formation (HCF) indicated in the aforesaid statement.	
1)	Ans. On-the-job training is the source of Human Capital Formation (HCF) indicated in	1
	the aforesaid statement.	I
ii)	Elaborate the likely impacts of this source on the economic development of India.	
)	Ans. On-the-job training has become an integral part of work environment in the recent	
	times as it enhances the productive capacity of employees. It enables employees to	2
	develop skills and adapt to modern technologies. As a result of on-the-job training, an	_
	employee is likely to contribute more productively leading to the economic development	
	of India.	
		3
80.	"United Nations Department of Economic and Social Affairs indicated that India has	
(a)	overtaken China as the world's most populous country in the month of April 2023."	
	Explain the consequences of one-child policy adopted by China in the 1970s.	
	Ans. In the late 1970's, owing to the population explosion and the subsequent socio-	
	economic concerns, China adopted the One Child Norm. This policy led to a sharp	2
	decline in its population growth rate. In addition to this, the sex ratio declined.	
	Furthermore, the implementation of the one-child norm led to increase in the	
	population of elderly people in proportion to young people.	
b)	Discuss the imposts of Special Economic Zanes (SEZs) on the according rowth of China	
b)	Discuss the impacts of Special Economic Zones (SEZs) on the economic growth of China.	
	Ans. The setting up of Special Economic Zones (SEZs) in China led to a substantial	2
	increase in foreign direct investment in the economy. With the massive inflow of foreign	2

	capital and technology in China, the productive capacity increased thereby contributing to the rapid economic growth of China.	
		4
31. (a) (i)	State and elaborate whether the following statements are <i>true</i> or <i>false</i> , with valid arguments: In the recent past, the Government of India has taken crucial steps, like Jan-Dhan Yojana, for efficient allocation of financial resources. Ans. True, the Government of India has implemented schemes like Jan-Dhan Yojana, which has promoted thrift habits and efficient allocation of financial resources. The formal banking system has been benefitted by mobilization of a substantial amount under this yojana.	2
(ii)	Worker-population ratio is an indicator, used for analyzing the employment situation in a nation.	
	Ans. True. Worker-population ratio is useful in knowing the proportion of population that is actively contributing to the production of goods and services of a country. If the ratio is higher, it means that a greater number of people are employed and vice versa.	2
	OR	4
(b) (i)	Elaborate the need to promote women's education in India. Ans. Promoting women's education in India is imperative for societal progress and gender equality. Educated women contribute to economic growth by entering the workforce and making informed decisions about their lives. Moreover, educating women makes a favourable impact on the fertility rate and health care of women and children. Hence, investing in women's education uplifts communities and drives sustainable development across India.	3
(ii)	Mention any two examples of diversification activities in the non-agro processing industries. Ans. Examples of diversification activities in the non-agro processing industries are: • Fisheries • Animal Husbandry (Any other valid example to be awarded marks)	1/2 1/2
		4
32. (a)	State any two problems faced by farmers during the initial years of organic farming. Ans. In the initial years of organic farming, farmers used to face a lot of problems such as: • Yields from organic farming are relatively less. • Inadequate infrastructure. (Any other valid problem to be awarded marks) "In the current situation, Information Technology plays a vital role in achieving food security in a nation like India."	1/2 1/2
	Justify the given statement. Ans. In India, Information Technology (IT) plays a crucial role as government can predict areas of food insecurity and vulnerability using appropriate information and software tools. It helps in disseminating information regarding emerging technologies and their applications, prices, weather and soil conditions for growing different crops etc. Hence, IT plays a vital role in achieving sustainable development and food security in a nation like India. (To be marked as a whole)	3

33. (a)	"Under the liberalisation measures taken by the Government of India, regulation of industrial sector was extremely crucial."	
	Reject or support the given statement with valid arguments.	

	Ans. The given statement is rejected. As the liberalisation measures curtailed many restrictions on the industrial sector. Industrial licensing was abolished for almost all except for three industries. Many goods produced by Small Scale Industries were dereserved. In most of the industries, market has been allowed to determine the prices independently. This was necessitated by the slower industrial growth rate under the pre-reform period. (To be marked as a whole)	3
(ii)	"Despite the implementation of Green Revolution, 65 per cent of India's population continued to be engaged in the agriculture sector till the 1990s." Justify the given statement with valid explanation. Ans. Some economists argue that Green Revolution did not make much impact on the	
	occupational structure of the country, as 65% of India's population continued to find its livelihood in agriculture. A major reason for this fairly large proportion of population in agricultural sector as the industrial and service sector were not able to absorb the people working in the agricultural sector. (To be marked as a whole)	3
(b)	OR "Every coin has two sides - debate over farm subsidies is one such classic example of the	6
(i)	same." Justify the given statement with two arguments each in favour of and against the continuation of the farm subsidies. Ans. The introduction of farm subsidies had been an opinionated step taken by the Government of India.	
	 Arguments in favour of continuing farm subsidies: Eliminating subsidies may increase inequalities of income between rich and poor 	1
	 farmers. Most farmers (small and marginal) may not be able to afford expensive agricultural inputs without subsidies. 	1
	 Arguments against farm subsidies: It is often argued that farm subsidies have helped the fertilizer industry much more than helping the needy farmers. 	1
	• Economists argue that subsidies are a huge burden on government's finances.	1
(ii)	State the importance of "Growth with equity" as the objective of Indian economic planning. Ans. For a nation, both growth of Gross Domestic Product (GDP) and equity in distribution of income are equally important. Growth refers to an increase in a country's capacity to produce goods and services. Equity refers to reductions in inequality of income and wealth.	2
	Growth with equity ensures that the fruits of economic development are enjoyed by all sections of society equitably. Hence, achieving equitable growth is an important objective that was taken into consideration in the Indian economic planning.	6
34.	Read the following text carefully: In order to address two major environmental concerns in India, viz. water and air pollution, the government set up the Central Pollution Control Board (CPCB) in 1974. This was followed by states establishing their own state level boards to address all the environmental concerns. They investigate, collect and disseminate information relating to water, air and land pollution, lay down standards for sewage/trade effluent and emissions. These boards	6

 Elaborate any two strategies to ensure sustainable development as adopted by India. Ans. In order to ensure sustainable development, following strategies are adopted by India: Use of wind energy: In areas where speed of wind is usually high, windmills are used to generate electricity without any adverse impact on the environment. Use of solar energy: With the help of photovoltaic cells/solar panels, solar energy can be converted into electricity. This technology is extremely useful for remote areas and is free from pollution. (Any other valid strategy to be awarded marks) 	1 ¹ / 1 ¹ / 6

planning.	
emissions. It also provides background air quality data needed for industrial siting and town	
effluents.	
manuals, codes and guidelines relating to treatment and disposal of sewage and trade	
	effluents. They assess the air quality through regulation of industries. In fact, state boards, through their district level officials, periodically inspect every industry under their jurisdiction to assess the adequacy of treatment measures provided to treat the effluent and gaseous emissions. It also provides background air quality data needed for industrial siting and town planning. The pollution control boards collect, collate and disseminate technical and statistical data relating to water pollution. They monitor the quality of water in 125 rivers (including the tributaries), wells, lakes, creeks, ponds, tanks, drains and canals. On the basis of the given text and common understanding, answer the following questions: State any two concerns owing to which the Central Pollution Control Board (CPCB) was established. Ans. Two major concerns owing to which the Central Pollution Control Board (CPCB) was established were: • Water pollution • Air pollution • Air pollution • Air pollution • It investigates, collects and disseminates information relating to water, air and land pollution. • It lays down standards for sewage/trade effluent and emissions.
