A MESSAGE FROM DEAN KHALED HASSANEIN

The world has evolved and so too have the needs of education.

A global pandemic upended both business and education. We've witnessed tremendous shifts in healthcare management; the role of technology in business and society; social values and perspectives on equity, diversity, and inclusion; and ethics in an increasingly polarized world, to name just a few changes.

The role of education today is to prepare our students for careers shaped by digital disruption, AI, health crises, wealth inequality, climate change, supply chain disruptions and to have social values and perspectives on equity, diversity and inclusion and the role of ethics in an increasingly polarized world. This is not an exhaustive list.

At DeGroote we're looking for students, ready and prepared to help us tackle this future. We look for students who embody our values and are willing to take on the responsibility of being a change-maker in both business and society.

As you contemplate which school to pursue your MBA, I ask one question: do you want to be part of this future?

Warm Regards,

Khaled Hassanein

Dean, DeGroote School of Business

WELCOME TO DEGROOTE

At DeGroote, we're not just looking for business students. We want students from all backgrounds who are ready to make a difference in the world.

We want to talk to the engineer who has great sustainability ideas but needs help on the commercialization side. We want to learn more about the political science major who is working in government but wants to explore consulting. We want to talk to the budding healthcare professional with a passion for microfinance loans in developing countries.

Regardless of your background, every DeGroote MBA student has potential waiting to be unlocked. An MBA from DeGroote brings you closer to realizing your dream, and we want to help you get there.

WHO WE ARE

DeGroote is a community. We're collaborative and welcoming. We want to work with students who want to make a difference and see the value and potential in one another.

WHO YOU ARE

You might be early in your career, or a recent graduate. We look for students who think big and look for opportunities. Call it ambition or passion, we want to give you an opportunity to reach your goals and we believe our MBA is the best place for you to begin.

WORKING TOGETHER

Get there is more than a tagline, it's a mantra we operate by. Connecting with classmates, instructors, staff, and alumni, we get to know you, what you want to do and what barriers we can remove together. At DeGroote, we get there together.

THE DEGROOTE MBA EXPERIENCE

PROGRAM OPTIONS

At DeGroote, we take a student-first approach. We'll work with you to find the best program for your career goals. No matter which MBA program option you choose, you will develop your network and graduate with the skills and knowledge our employers are looking for.

EXPERIENTIAL EDUCATION

Seamlessly integrating classroom and real-world experiences, our MBA program addresses industry needs and opportunities. With a focus on hands-on learning in a supportive and inclusive environment, our MBA students build critical thinking and collaborative group skills as they work through the program. **All programs have the opportunity to gain paid Canadian work experience.**

CLASSROOM EXPERIENCE

Your colleagues come from a variety of backgrounds and disciplines, creating a diverse perspective in the classroom. You'll be able to learn from each other's varied skillsets, creating a collaborative and well-rounded learning environment.

THE DEGROOTE SCHOOL OF BUSINESS

has been accredited by the Association to Advance Collegiate Schools of Business (AACSB International) since 2006.

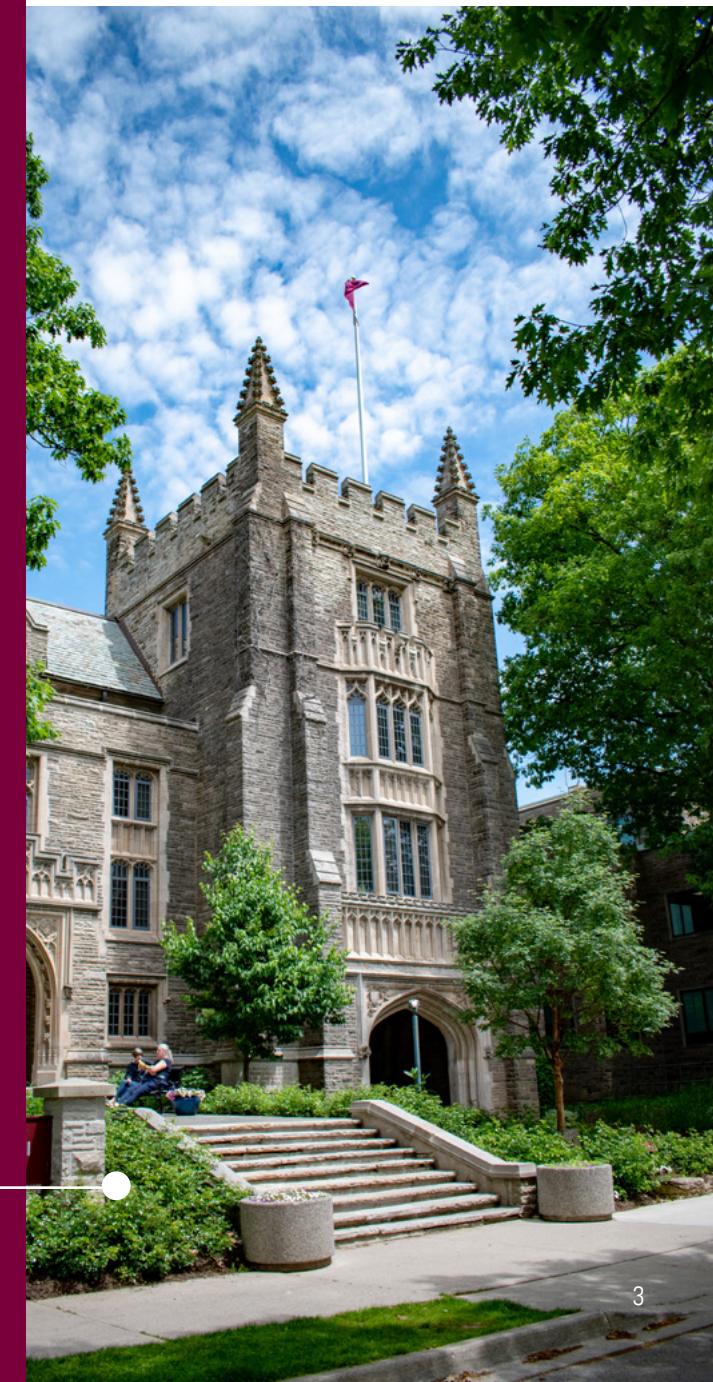

A WORLD CLASS UNIVERSITY

McMaster has been named among the world's top 100 universities for the fifth year in a row. The university is ranked 80th in the 2022 Times Higher Education rankings, one of only four Canadian universities in the world's top 80.

WHAT IS AN MBA?

The Master of Business Administration is the **world's most popular graduate management degree**. MBA students come from a variety of backgrounds and disciplines. This degree helps you learn management skills and advance your career, no matter your goals.

THE DEGROOTE CULTURE

At DeGroote, we value integrity as it will help you succeed in your personal and professional life.

We value community and collaboration. As an MBA student, we believe you will transform business and society and contribute to a brighter world. We value those who give willingly and go above and beyond; and we know that beyond simply completing an MBA, it will be the values we instill in you that will help you stand out in the workplace. Every DeGroote student has demonstrated a desire to help their community, act with integrity, uphold our values and go beyond the practical academic skills. That is who we look for.

DEGROOTE LEADERS

A DeGroote Leader is a student who exhibits the values of DeGroote; someone who is passionate about the program and your success and on your first day will welcome you into the program. These leaders will show you how to be active in and out of the classroom during your MBA and be a guiding voice throughout your first year in the MBA program.

PITCHING IN FOR CHARITY

Since 2014, DeGroote MBA candidates, working alongside local charities, have collaborated to answer one question: What should a charity do with \$5,000?

Wrestling with the real world challenges these charities face, MBA candidates use their practical experience and classroom knowledge to provide sound business advice and solutions.

Presenting to a panel of judges made up of peers, faculty, staff, alumni, and corporate and community partners, the best-judged solution receives a prize of \$5,000 (provided to the charity you represent), with additional prizes of \$1,000 given to runners-up.

Pitching in for Charity represents a true win-win scenario for the community and our students.

“Pitching in for Charity is a great win-win, both as a learning opportunity for the students, but also practical support to address real needs these charities have. They brought their knowledge from various courses together, and really aimed high, demonstrating that they can think like the stakeholders.”

Helen Chen
Instructor, Human Resources and Management

A MULTI-DIMENSIONAL PERSPECTIVE

Our students come from a range of backgrounds and industries which means you will be exposed to different perspectives through your time here. In the classroom, you will hear from faculty and industry leaders who will help expand your understanding of the potential applications of business in every area.

STUDENT COMMITMENT TO EDI

“Being part of the EDI committee and working alongside student leaders and faculty who embody equity, diversity, and inclusion, has allowed DeGroote to create an inclusive culture within and outside the classroom wherein unique voices, thoughts, and opinions are not only encouraged but celebrated.”

Dwitiya Sapre, MBA '22
Co-Chair, Equity, Diversity, and Inclusion (EDI) Working Committee

YOUR STUDENT EXPERIENCE

An MBA is more than the credentials you receive. It is about the opportunities you explore outside of the classroom that contribute to a fulfilling experience, providing you with lifelong friendships and a network that will help you throughout your career. At DeGroote we value engagement. Connect with each other, alumni, employers, and faculty. Compete in case competitions, all the while, building your confidence and your resume.

DEGROOTE EXPERIENCE FUND

Learning should never be limited to the classroom. We believe in the power of experiential education and thanks to the generous support of our donors, DeGroote students can take full advantage of educational opportunities at home and abroad.

MBA Candidates Isabella Olivares, Jennifer Sung, Stephanie Castelo, and Aneri Patel used the fund to participate and make the finals of the Reimagining Women in Leadership (RWIL) Virtual MBA Conference and Case Competition, hosted by Ted Rogers MBA Program at Toronto Metropolitan University (Ryerson University).

“Competing in case competitions is the best experiential learning in MBA. RWIL gave me the opportunity to not only improve on my analytical and case cracking skills, but also allowed me to understand and appreciate the benefits that Open Banking will bring to Canada.”

Aneri Patel, MBA '21 | Consultant, Mergers & Acquisitions, Deloitte

MBA Candidates Tyler Boulanger, Jacob Lechowicz, Justin Lee, and Michael Bethune used the fund to participate in the Ivey Sports Leadership Conference, hosted by Richard Ivey School of Business at Western University.

“This conference was a great opportunity to network with like-minded individuals, hear from members of the industry I’ve always look up to, and work with a new team of strong thinkers. The case competition was a great learning experience with regards to both the case method and the sports industry.”

Michael Bethune, MBA '23 Candidate

“You may think you have a plan in place, but that shouldn’t prevent you from having an open mind and trying new things. It’s always important to make connections, get involved, and try new experiences. You will learn a lot about yourself and discover opportunities you didn’t know existed.”

Josh Bell, MBA '21
Consultant, Daggerwing Group

YOU DEFINE SUCCESS

Case competitions are an essential part of the MBA experience at DeGroote. They help students sharpen their creative thinking, expand their business acumen, and gain valuable experience in real-world corporate situations. They also prepare DeGroote grads to excel as their careers begin to take shape.

D700 CASE ANALYSIS COURSE

This senior level course prepares students to represent the DeGroote School of Business at national and international case competitions. Through the case method, students place themselves in the role of the decision maker. Guidance from appropriate experts helps students understand how to analyze, provide recommendations, and defend their implementation. Students will also develop their analytical and presentation skills.

2022 MBA GAMES

The MBA Games is the largest collegiate competition in Canada, with over 300 MBA students and 16 business schools competing. In 2022, DeGroote finished second overall. Over the past 10 years of the MBA Games, the DeGroote School of Business has **won five times**.

“DeGroote, as a whole, has a really good collaborative environment. Even on the academic side, we help each other in our classes and in ensuring that we all succeed, rather than just being competitive. That is one of the strengths of our MBA teams.”

Soundarya Selvam | MBA '22, MBA Games
Co-Chair, Consultant, Digital Health, KPMG

Isabella Olivares | MBA '22, MBA Games Co-Chair,
Account Manager, Apfficiency, Inc.

DEGROOTE INNOVATIVE SOLUTIONS CONFERENCE (DISC)

DeGroote MBA candidates developed a first of its kind virtual case competition. MBA students from multiple universities across Canada developed and presented solutions to pressing digitization challenges.

“Our world is continuously evolving to be more digital, and we see these advancements in our everyday lives. We want to ensure that the next generation of business leaders are equipped with the problem solving and critical thinking skills to take a lead in the future of digitization. Case competitions like DISC are a great opportunity to provide students with real-world situations and challenge them to think at a greater scope.”

Christie Lee | MBA '22,
DISC Co-Chair, Activate Associate, Marketing, Scotiabank

Nikita Patel | MBA '22,
DISC Co-Chair, Project Analyst, St. Joseph’s Healthcare Hamilton

A PLACE FOR EVERYBODY

The Ron Joyce Centre, DeGroot's dedicated facility for MBA students, is located in Burlington, Ontario. The four story, 90,000 square foot building houses state-of-the-art classrooms, meeting spaces and lecture facilities, serving as a hub for academic and economic collaboration in Burlington and the Halton Region.

Designed with students in mind, the Ron Joyce Centre (RJC) has an open and flexible design to promote the best learning environment and accommodate various uses, enriching the student experience and facilitating collaboration.

“The cutting-edge facilities allow instructors to teach by utilizing numerous active learning techniques. Classrooms of all sizes are accessible and designed with different student needs in mind, offering everyone a truly immersive learning experience. Collaboration rooms allow students to seamlessly breakout and work together in groups, during class time or otherwise. Overall, the learning environment at the RJC is one-of-a-kind and truly matches DeGroot's academic reputation in graduate studies.”

Nour El Shamy
Instructor, Information Systems

“The dedicated MBA facility at the Ron Joyce Centre provides multi-purpose, individualized spaces to our students. The industrial and government community also use the Burlington campus facilities to host their events. This gives our students the chance to meet and mingle with experienced community members in a natural informal setting, providing meaningful experiential learning and networking opportunities.”

Aadil Merali Juma
Assistant Professor, Accounting and Financial Management Services

Your supportive and diverse classroom and extra-curricular experience means you will never feel isolated through your degree. According to a 2021 survey by the Canadian Bureau for International Education, **95% of international students in Canada said they were incredibly satisfied with their experience studying in the country.** With a growing economy, the region provides ample opportunity to pursue your future career.

“Before joining DeGroot I was in Ghana, West Africa. Moving to a new country, the co-op terms offered was a perfect opportunity to blend studying and valuable work experience. Through the MBA, I have also built a professional network. The experience and education at DeGroot has prepared me for a career of a lifetime.”

Solomon Semavor, MBA '21 | Accra, Ghana
Risk Advisory Consultant, Deloitte

TOP THREE REASONS INTERNATIONAL STUDENTS CHOOSE CANADA:

INTERNATIONAL MBA WELCOME WEEK

Incoming International MBA students will participate in International Welcome Week prior to starting the program, typically held during the last week of August. The MBA International Welcome Week combines informative and interactive sessions which aims to establish a sense of community for incoming MBA students who may be studying and/or living in Canada for their first time. International students will then be better prepared to live, work, and experience life in Canada, so that their attention can be focused on succeeding in their program rather than acclimating to a new school, city, and country.

POST-GRADUATION

Upon completion of your full-time MBA or MBA with Co-op program you may be eligible to apply for a **Canadian Post-Graduate Work Permit (PGWP)** which would be issued for the length of your program. This program allows students who have graduated from eligible Canadian designated learning institutions (DLIs) to obtain an open work permit to gain valuable Canadian work experience. Students who have completed their program of study are allowed to work while they are waiting for a decision on their post-graduation work permit application.

“Coming to Canada as an international student was my first foreign trip. I got to interact with people from different backgrounds, some with a little bit of experience, some who just completed their undergraduate degree. This gave me an opportunity to identify different perspectives, work with students from varied backgrounds and diversity. That was memorable for me. Don't be afraid to step out of your comfort zone.”

Sujay Kulkarni, MBA '21 | Bangalore, India
Technical Account Manager, Google

LIVING AND LEARNING IN THE GREATER HAMILTON AND TORONTO AREA

Our MBA Campus at the Ron Joyce Centre is part of the Golden Horseshoe – a mix of vibrant urban living and breathtaking natural wonders – located in the heart of southern Ontario.

McMaster's main campus, located in Hamilton, is home to more than half a million people, situated centrally – less than one hour's drive from Toronto, Niagara Falls, Kitchener-Waterloo, and the United States border. Hamilton has a lively arts and cultural scene, featuring the best in music, arts and food.

EXPERIENTIAL OPPORTUNITIES

Students have the opportunity to discover new work settings to stimulate growth in their own professional development. Our **Career and Professional Development** team will work with you to secure meaningful experiences throughout your degree.

“Work-integrated learning provides learners with a safe space to stumble, make mistakes, and learn from them in ways that will only serve them and their professional development moving forward.”

Erin Sarfi, MBA '23 Candidate

Co-op: Project Analyst, St. Joseph's Healthcare Hamilton; Strategy Analyst, Ontario Health; Policy Analyst, Innovation, Science & Economic Development Canada

“The DeGroot MBA program includes opportunities to tackle real business problems with local organizations through the integrated project and live case competitions. The opportunity to work with organizations and solve complex business challenges is invaluable and an incredible opportunity to gain real world experience as a business leader.”

STRETCHING BEYOND BORDERS

Your classroom experience is enriched through conversations and perspectives gleaned from your colleagues' work experience, academic and cultural background. At DeGroote, we attract talent from across the globe which enriches the overall student and classroom experience. From providing you with one of 49 international study options to an alumni network of over 8,300 MBA alumni that stretches beyond 81 countries, DeGroote helps guide a global business experience.

STUDY ABROAD

Studying abroad allows you to immerse yourself in another culture while continuing to earn credits toward your MBA degree. It has become increasingly important for individuals and organizations to compete in the international marketplace. The most successful business leaders of tomorrow will be those who are comfortable crossing national and cultural boundaries. This international exchange experience helps you develop your career-ready skills including problem solving, resilience, interpersonal communication, and adaptability. Full-time and Full-time with Co-op MBA candidates with good academic standing can qualify for an exchange in the third academic term of their program.

“ Spending time abroad brought a much-needed international perspective that was both refreshing and engaging. I learned to collaborate and lead teams from different academic, cultural, experience and language backgrounds. It showed me the value of balance between professional work and personal obligations that brings a holistic and fulfilling dimension to life.”

Co-op:
Global Technology Strategy and Execution, Manulife; Management Consultant, KPMG [two terms]

Role prior to Completing MBA:
Business Process Analyst, Loblaws

“ My co-op terms allowed me the opportunity to interact with a brand-new set of people, learn a new set of skills and understand the ins and outs of a business in a short time frame. Taking those experiences and bringing them to the consulting world, where my engagements are four to eight months at the most, I'm able to ramp up and quickly get on board with things. This has been extremely beneficial to me and helpful for the type of work I'm currently doing.”

JADE YANG | MBA '20

Current Role: Sr. Manager, Global Distribution Marketing at TE Connectivity

Previous Education: Bachelor of Business Administration, Liaoning University, Shenyang, Liaoning, China

Co-op: Executive Resident, The Hospital for Sick Children (SickKids) [two terms]; Strategic Business Development, 3M

Role prior to Completing MBA: Founder and CEO of Shenyang Zero One Marketing Ltd., China

“ I came to Canada wanting to continue working in marketing, which is where my career led me. When I first arrived, I realized that for marketing, you need to have a good grasp on culture, so I decided to specialize in Health Services Management. This led me to my co-ops at SickKids and healthcare marketing at 3M for my last co-op. After graduating and working at 3M for a year, I landed my current global marketing role, leveraging my international background and strengths. Don't limit yourself by telling yourself what you can and can't do.”

TANVIR BHANGOO | MBA '14

Current Role:

CEO and Founder, TB Momentum

Previous Education:

Bachelor of Commerce, DeGroote School of Business, McMaster University

“The MBA at DeGroote gave me the ability to change my way of thinking. I was knowledgeable thanks to my undergraduate education but was missing the ability to think strategically. I gained a general understanding of business from different areas, which is great from an entrepreneurial standpoint. Finally, the attention to developing soft skills prepared me for my current and future career. The program allows you to get a good foundation and leverage different tools that you will need in life.”

SHELLINA YEUNG | MBA '22

Current Role:

Senior Consultant, People & Change, KPMG Canada

Previous Education:

Bachelor of Commerce, DeGroote School of Business, McMaster University

“I chose DeGroote to pursue an MBA because of my positive experience during my undergrad. The culture of the DeGroote community is what drew me back. The DeGroote community is very diverse and it is great to be able to learn and work with people from different backgrounds. The level of participation, collaboration, and meaningful discussions in classes at the MBA level pushed me outside my comfort zone and enhanced my learning. I am proud to be a part of the DeGroote family!”

JULIETTE ZHANG | MBA '21

Current Role:
Senior Manager, Enterprise Excellence, Innomar Strategies

Previous Education:
Bachelor of Science, Bio-Medical Science, University of Guelph; Bachelor of Arts, Marketing Management

Previous Role(s):
Manager, Business Transformation, Innomar Strategies

“ I strongly believed that the core fundamentals and impactful interactions acquired through the program would propel my career to the next level and enhance my skills to lead with confidence. A distinct benefit of the BLPT program is not having to take yourself out of the workforce to pursue your MBA degree. This is particularly relevant and advantageous in today’s environment where industries and technologies are evolving at such a rapid pace. You are able to immediately apply classroom learnings to the workplace and vice versa.”

SHAN LODHI | MBA '21

Current Roles: Consulting Manager, Cognizant

Previous Education: Bachelor of Engineering, Mechanical Engineering, Western University

Previous Roles: Product Manager/Process Engineer, CIBC

“ I don’t have a business background found that it was very hard to speak the same language as my colleagues. I asked myself, ‘how can I level up?’ I chose the blended program right away. It’s the rare program that has flexibility built in it. Thanks to the MBA, I was able to secure a role as Product Manager at CIBC, starting my trajectory into marketing and strategy. The program has consolidated all of the important learning of an MBA program into an easy delivery method. If you’re looking to up level your skillset and do it in a way that’s least disruptive to your life, this is the program to choose.”

SCHOLARSHIPS, AWARDS, AND BURSARIES

SCHOLARSHIPS, AWARDS, AND BURSARIES

All applicants to Full-Time MBA programs are considered for entrance scholarships at the time of admission. In 2022, the average scholarship received by an admitted applicant was \$10K. Entrance scholarships range from \$2K- \$30K.

\$1M in entrance scholarship funding was available in 2021

Once enrolled, students will also have the opportunity to apply for scholarships, also called awards, and bursaries. Scholarships are funding that's awarded based on your academic and extracurricular achievements. Some are automatically awarded based on grades and others require an application. Bursaries are funding provided by McMaster University based solely on financial need.

Both are non-repayable funding, which means they don't need to be paid back.

SIMPLIFYING THE PROCESS

Apply to scholarships and bursaries with AwardSpring. This centralized process means you can complete one common application that matches you with all the aid and award opportunities you're eligible for. It also tracks the completion of any additional requirements on a user-friendly dashboard. Students will have access to AwardSpring if admitted to the program in August, 2023
