SECTION E
(Case-Based Questions)

(3×4=12)

34. Read the given source and answer the questions that follow :

Most of the objections to the projects arose due to their failure to achieve the purposes for which they were built. Ironically, the dams that were constructed to control the floods have triggered floods due to sedimentation in the reservoir. Moreover, the big dams have mostly been unsuccessful in controlling floods at the time of excessive rainfall. You may have seen or read how the release of water from the dams during heavy rains aggravated the flood situation in Maharashtra and Gujarat in 2006. The floods have not only devastated life and property but also caused extensive soil erosion. Sedimentation also meant that the flood plains were deprived of silt, a natural fertiliser, further adding on to the problem of land degradation. It was also observed that the multi-purpose projects induced earthquakes, caused water-borne diseases and pests and pollution resulting from excessive use of water.

- (34.1) Name the movement against the river project in Gujarat. 1
- (34.2) How have the big dams mostly been unsuccessful in controlling floods at the time of excessive rainfall? 1
- (34.3) Analyse any two merits of multi-purpose river projects. 2×1=2

35. Read the given source and answer the questions that follow :

Yet, till the First World War, industrial growth was slow. The war created a dramatically new situation. With British mills busy with war production to meet the needs of the army, Manchester imports into India declined. Suddenly, Indian mills had a vast home market to supply. As the war prolonged, Indian factories were called upon to supply war needs: jute bags, cloth for army uniforms, tents and leather boots, horse and mule saddles and a host of other items. New factories were set up and old ones ran multiple shifts. Many new workers were employed and everyone was made to work longer hours. Over the war years industrial production boomed.

After the war, Manchester could never recapture its old position in the Indian market. Unable to modernise and compete with the US, Germany and Japan, the economy of Britain crumbled after the war. Cotton production collapsed and exports of cotton cloth from Britain fell dramatically. Within the colonies, local industrialists gradually consolidated their position, substituting foreign manufacturers and capturing the home market.

- (35.1) Why did Manchester imports decline in India? 1
- (35.2) Why could Manchester never recapture its old position in the Indian market after the First World War? 1
- (35.3) Analyse any two benefits of the First World War to India. 2x1=2

36. Read the given source and answer the questions that follow :

The rise of political parties is directly linked to the emergence of representative democracies. As we have seen, large societies need representative democracy. As societies became large and complex, they also needed some agency to gather different views on various issues and to present these to the government. They needed some ways, to bring various representatives together so that a responsible government could be formed. They needed a mechanism to support or restrain the government, make policies, justify or oppose them. Political parties fulfil these needs that every representative government has. We can say that parties are a necessary condition for a democracy.

- (36.1) Explain the meaning of a 'political party'. 1
- (36.2) "The rise of political parties is directly linked to the emergence of representative democracies." Support this statement. 1
- (36.3) Why are political parties a necessary condition for a democracy? Explain. 2
