Read the following paragraph and answer question nos. 13-16 on the basis of the same:

Mayank Ltd. is a real estate company. Since its establishment, the company acquired a good market share. With the boom in the Indian economy, the real estate sector is also witnessing a boom due to lower interest rates on housing loans and accompanying income-tax concessions.

For meeting this increasing demand, the finance manager of the company suggested to raise \neq 1,250 crore by issuing shares and \neq 750 crore by way of loan from the bank. He was of the opinion that this will increase per share earnings of the shareholders.

The directors of the company wanted to raise capital more quickly and suggested that it would be better to allot the securities to some selected individuals. They also suggested that instead of taking loan from the bank the privilege can be given to existing shareholders to subscribe to a new issue of shares for \neq 750 crore.

Read the following paragraph and answer question nos. 17-20 on the basis of the same:

Kshitij just completed his MBA from IIM Ahmedabad. He was not interested in doing a job. So he decided to start his own start-up. He along with his friend Naitik decided to start a dairy business for providing fresh and pure milk to people. For this, they gathered and analysed market information. They found that people were interested in buying cow's pure milk. So for meeting the demand for pure cow milk, they purchased 50 cows. They installed a plant for pasteurisation of the milk. Fresh milk was pasteurised and packed in glass bottles. On the bottles, all information related to milk such as Date of Manufacturing, Nutrition value, Quantity, MRP, etc. was given. They gave the name 'Fresh Delight' to the milk which was also printed on the bottles.

For distribution of milk, they hired delivery boys who supply this milk door to door. They got the name 'Fresh Delight' registered so that no other firm can use such name in the country.
