

To

The admissions committee
(Name of the University)

Subject:

Dear Sir/Madam,

It is my great pleasure to recommend the candidacy of **(Student's Name)** for admission into MS in Engineering Program at **(Institution's Name)**. I have known **(Student's Name)** for last three years and I've had the pleasure to teach her mathematics and physics during her Bachelor's program in Electrical Engineering. Her willingness to learn and dedication towards the subject makes her different from other students.

She has an inquisitive mind and is always eager to learn new things. She has always been an active participant in classroom discussions and stays attentive during her lectures. She is a bright student and has great mathematical understanding. I've been impressed by her analytical and logical skills numerous times. I'm very confident that she will be an asset to your electrical engineering department and university community as a whole.

(Student's Name) puts her sweat and blood into everything that she wishes to achieve and never gives up until and unless she's successful in it. She has displayed this quality when she was competing with the the best scholars of the world at a national level science quiz. She worked hard day and night and received the first prize. She has participated in many national level competitions and bagged several prizes. These competitions include science exhibitions, maths quiz, debates, Olympiads, etc.

During our time together in the classroom, she has demonstrated marvelous communication skills, interpersonal skills, and creative thinking skills. Her out of the box ideas have helped us solve many questions. Her final year project on "Photovoltaic Solar Power Generation with Maximum Power Point Tracking" has been awarded by the department as the best project of the year. She has paid meticulous attention to even the littlest details of the project. She is capable of achieving her goal and has been very clear about what she wants to be since the very beginning

I have absolutely no reservations about recommending **(Student's Name)** for admission to the electrical engineering program at your university. During my 10 years of teaching career, I place her among top 15 students I've ever taught. Please contact me in case of any questions at **(email Id of referee)**.

Thanking you

Sincerely
