Government Exams

150 Questions

Que. 1 **Directions:** Study the following information and answer the given questions.

There are ten persons namely – A, B, C, D, E, F, G, H, I and J, they went for a picnic on either 12th or 15th of March, April, July, September and December.

Only one person went for a picnic on one date. Four person goes between C and E, who goes after C. J goes to picnic in one of the months before C. C does not go in March and on an even date. Two person goes between B and J. G goes on picnic in one of the months which has 30 days but not on 12th. D goes immediately after J. Five persons go between A and I. I go on picnic before H and after F.

Who goes the picnic immediately before B?

1. C
2. A
3. H
4. G
5. F

Testbook Solution   Correct Option **- 1**

Que. 2   Who goes on picnic on 15th September?

1. A
2. F
3. G
4. C
5. H

Testbook Solution   Correct Option **- 3**

Que. 3   In which month, does J go for the picnic?

1. April
2. July
3. March
4. September
5. December

Testbook Solution   Correct Option **- 3**

Que. 4   How many peoples go for the picnic between F and I?

1. Two
2. Six
3. Three
4. One
5. None

Testbook Solution   Correct Option **- 5**

Que. 5   Who goes the picnic immediately after G?

1.   A
2.   C
3.   E
4.   I
5.   B

Testbook Solution   Correct Option **- 3**

Que. 6   **Directions:** In the following question assuming the given statements to be true, find which of the conclusion among given conclusions is/are definitely true and then give your answers accordingly.

Statement:

$T \leq U > S; H > G \geq M = U; S \geq R = Q \geq P$

Conclusion:

I. $S > P$

II. $P \leq S$

1.   Only conclusion I follow
2.   Only conclusion II follow
3.   Neither conclusion I nor II follow
4.   Both conclusion I and II follow
5.   None of these

Testbook Solution   Correct Option **- 2**

Que. 7   **Direction:** In the following question assuming the given statement to be true.Find which of the following conclusion(s) among given conclusions is/are definitely true then give your answer accordingly.

Statement:

$P = U < H < K \leq G > N; D \leq K$

Conclusion:

I. $D \geq U$

II. $P > D$

1.   Neither conclusion I nor II is true.
2.   Both conclusion I and II are true.
3.   Only conclusion II is true
4.   Either conclusion I or II is true
5.   Only conclusion I is true.

Testbook Solution   Correct Option **- 4**

Que. 8   In the following question assuming the given statements to be true, find which of the option among the given options is/are definitely true and then give your answers accordingly.

Statements: $A > E > C ; C = D ; E < F$

Conclusions:

I. D < E

II. C < A

III. A > F

1. Either II or III is correct.
2. Only conclusion III is incorrect.
3. Neither II nor III are correct.
4. All conclusions are correct.
5. Only conclusion II is correct.

Testbook Solution   Correct Option **- 2**

Que. 9   **Directions:** In the following question assuming the given statements to be true, find which of the conclusion among given conclusions is / are definitely true and then give your answers accordingly.

Statement: G > R = O > C < E; R ≤ Y

Conclusions:

I. Y = O

II.Y > O

III. O > E

1. Only III is True.
2. Either conclusion I or II are True.
3. Only II is True.
4. Either conclusion II or III are True.
5. None is True.

Testbook Solution   Correct Option **- 2**

Que. 10   **Directions:** In the following question assuming the given statements to be true, find which of the conclusion among given conclusions is/are definitely true, and then give your answers accordingly.

Statements:

A < B = C < E; P ≤ K = C; K ≤ Z

Conclusions:

I. Z > B

II. C > A

III. P ≤ B

1. Only II is true
2. Only I is true
3. Only II and III are true
4. Only I and II are true
5. Only III is true

Testbook Solution   Correct Option **- 3**

Que. 11   **Direction:** Read the following information carefully and answer the questions that follow:

Eight people – P, Q, R, S, T, U, V and W are sitting around a square table (not necessarily in the same order) in such a way that four of them who are sitting at the corners of the table facing outside while other four who are sitting in the middle of each of the four sides facing inside. Each of them likes different colors – Red,

Yellow, Green, Orange, Blue, White, Pink, and Black. Two people who are facing the same direction (either inside or outside) are not sitting with each other. The one who likes Blue is not facing outside. U is sitting fifth to the left of the one who likes Blue. Only one person is sitting between U and the one who likes orange. P is sitting third to the right of the one who likes orange. Two persons are sitting between P and W. W doesn't like orange. Neither W nor P is an immediate neighbor of Q. The one who likes Yellow is sitting third to the right of Q. R and T are the immediate neighbors. R is not an immediate neighbor of W nor he likes orange. The one who likes White is an immediate neighbor of S. S is sitting third to the left of R. The one who likes Red is sitting second to the left of the one who likes green. R neither likes red nor Black.

Who among the following likes balck color?

1. S
2. V
3. W
4. The one who is sitting immediate left of V
5. The one who is sitting fourth to the right of W

Testbook Solution Correct Option - **3**

Que. 12 R likes which color?

1. White
2. Red
3. Pink
4. Yellow
5. None of these

Testbook Solution Correct Option - **3**

Que. 13 Which of the following statement is not true as per the given information?

1. T is the facing the one who likes Red color
2. Q is sitting fifth to the left of the one who likes Blue color
3. P is an immediate neighbour of R
4. V is facing to P
5. The one who likes white color is sitting immediate right of P

Testbook Solution Correct Option - **2**

Que. 14 How many people are sitting between R and the one who likes green color, when counted from the right of R?

1. Two
2. Three
3. Four
4. Five
5. Six

Testbook Solution Correct Option - **1**

Que. 15 Which of the following combination is correct?

1. Q, Orange
2. S, Red

3. U, White
4. V, Green
5. All the above

Testbook Solution Correct Option **- 5**

Que. 16 **Directions:** In the question below is given a statement followed by two courses of action numbered I and II. You have to assume everything in the statement to be true and on the basis of the information given in the statement, decide which of the suggested course of action logically follow(s) for pursuing.

If a company is incurring a huge losses due to many competitors in the market.

Which of the following statements is a viable course of action?

I. Company should offer a huge discount on all its product and attracts customers.

II. Increase productivity of your staff recognize and reward staff contributions with staff performance reviews, and teach them sales skills

1. Only I follows.
2. Only II follows.
3. Both I and II follow.
4. Neither I nor II follows.
5. Either I or II follows.

Testbook Solution Correct Option **- 2**

Que. 17 **Directions:** A statement is given followed by two inferences I and II. You have to consider the statement to be true even if it seems to be at variance from commonly known facts. You have to decide which of the given inferences, if any, follow from the given statement.

Statement: Due to COVID-19 pandemic, corporates have no other option left other than shutting down their campuses and giving their employees the flexibility of working from homes.

Inference:

I. COVID-19 pandemic have shifted the office of employees to their homes.

II. Corporates do not want to shut down their offices

1. Only I follows
2. Only II follows
3. Either I or II follows
4. Both I and II follow
5. Neither I nor II follow

Testbook Solution Correct Option **- 1**

Que. 18 **Directions:** Question below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question.

What is the code for 'beautiful'?

I. In a certain code language 'rose is beautiful' is coded as 'so iz ut' and 'he is handsome' is coded as 'eh iz dn'

II. In a certain code language 'candle light beautiful' is coded as 'na gi ut' and 'high light candle' is coded as 'mn na gi'

1. Data in statement I alone sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.

2. Data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.

3. Data either in statement I alone or in statement II alone are sufficient to answer the question.

4. Data in both the statements I and II together are not sufficient to answer the question.

5. Data in both the statements I and II together are necessary to answer the question.

Testbook Solution Correct Option - **2**

Que. 19 **Direction:** The following question consists of two statements numbered I and II. Decide if data given in the statements are sufficient to answer the questions below.

What is the relation between Q and P?

I. A is maternal uncle of X, who is only daughter of F, who is husband of B.

II. Q is mother-in-law of G, who is wife of A, who is son of P.

1. All the statements are required

2. Only I sufficient

3. Only II is sufficient

4. If either I or II is sufficient.

5. Question cannot be answered even with the information in both statements.

Testbook Solution Correct Option - **3**

Que. 20 **Direction:** In the following question, a given questions is followed by information in three statements. You have to find out the data in which statement (s) is sufficient to answer the question and mark your answer accordingly.

In which direction P with respect to Q?

I. P is northeast of T. T is west of S who is in south of P.

II. S is to the south of P and west of Q.

1. The data either in statement I alone or in statement II alone are sufficient to answer the question.

2. The data in both statements I and II together are sufficient to answer the question.

3. The data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.

4. The data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.

5. The data even in both statements I and II together are not sufficient to answer the question.

Testbook Solution Correct Option - **4**

Que. 21 **Direction:** Read the given information and carefully answer the following questions.

A certain number of people are sitting in a straight line, facing south. Some of them like different colors. The distance between two adjacent people is the same.

P sits fourth to the right of Q, who sits sixth to the right of Z. At least two people sit between W and Z. The person who likes red color sits exactly between the person who likes pink color and the person who likes blue color. The person who likes yellow color sits at one of the extreme ends. P does not like the yellow color and V likes blue color. No person sits to the right of P. W likes red color. S is an immediate neighbor of Z but does not like pink color. V, who is an immediate neighbor of Q, sits sixth to the right of the person who likes pink color. Not more than four persons sit between the one who likes yellow and the one who likes Red.

How many people are sitting in the row?

1. 9
2. 12
3. 14
4. 15
5. 17

Testbook Solution Correct Option - **2**

| **Que. 22** | Who sits exactly between W and P? |

1. Q
2. The person who likes Pink color
3. The person who likes Blue color
4. Z
5. S

Testbook Solution Correct Option - **3**

| **Que. 23** | Who sits immediately left of Z? |

1. The person who likes red color
2. Q
3. P
4. S
5. The person who likes blue color

Testbook Solution Correct Option - **4**

| **Que. 24** | Which pair among the following sits at the extreme ends? |

1. P, Q
2. S, W
3. S, Z
4. P, V
5. P, S

Testbook Solution Correct Option - **5**

| **Que. 25** | Who likes Yellow? |

1. S
2. W
3. P
4. V
5. Z

Testbook Solution Correct Option - **1**

| **Que. 26** | **Direction:** Each of the following questions consists of a statement followed by two arguments I and II. In making decision about important questions, it is desirable to be able to distinguish between 'strong' arguments and 'weak' arguments. 'Strong' arguments are those which are both important and directly related to |

the question. 'Weak' arguments are those which are of minor importance and also may not be directly related to the question or may be related to a trivial aspects of the question. Analyze first the statement then the arguments in context of the statement and finally decide which of the arguments hold(s) strong and help(s) formulate the most appropriate opinion on the subject.

Statement: Should there be a ban on product advertising?

Arguments:

I. No. It is an age of advertising. Unless your advertisement is better than your other competitors, the product will not be sold.

II. Yes. The money spent on advertising is very huge and it inflates the cost of the product.

1. Only argument I is strong
2. Only argument II is strong
3. Either I or II is strong
4. Neither I nor II is strong
5. Both I and II are strong

Testbook Solution   Correct Option **- 5**

Que. 27   **Direction:** read the following information carefully to answer the questions given below,

Six people A, B, C, D, E and F having different weights but not necessarily in the same order. The weight of B is more than A but less than C. The weight of F is more than D but less than that of B. weight of C is less than E. D is not the lowest in weight. The second-lowest person's weight is 62kg while the third-highest weight is 74 kg.

Who is the lowest in weight?

1. A
2. D
3. C
4. E
5. B

Testbook Solution   Correct Option **- 1**

Que. 28   What is the possible weight of F?

1. 70 kg
2. 61 kg
3. 54 kg
4. 34 kg
5. 88 kg

Testbook Solution   Correct Option **- 1**

Que. 29   B's weight is less than how many persons?

1. Two
2. Three
3. Four
4. Five
5. None of these

Que. 30 **Direction:** Study the information given below carefully and answer the questions that follow.

Point U is 8m east of point R. Point P is 3m north of point Q. Point U is 10m north of point V. Point W is 8m west of point V. Point R is exactly between point S and point T. Point R is 4m east of point Q. Point T is in 8m south of point S.

In which direction is point R with respect to point W?

1. East
2. South-East
3. West
4. North
5. North-West

Testbook Solution Correct Option - **4**

Que. 31 What is the shortest distance between point P and point R?

1. 5 m
2. 6 m
3. 10 m
4. 4 m
5. 3 m

Testbook Solution Correct Option - **1**

Que. 32 Four are the same in a certain way thus forms a group. Which among the following does not belong to the group?

1. P – R
2. S – U
3. R – V
4. Q – W
5. S – T

Testbook Solution Correct Option - **5**

Que. 33 **Directions:** Study the following information carefully and answer the questions given below.

O, P, Q, R, S, T, and U are seven different boxes and each box has a different item i.e. plate, scrub, umbrella, origami, can, uniform, and cup but not necessarily in the same order.

Box S and P do not have uniform. Box R is kept four boxes above box S and contains umbrella. Box U is placed at the top and contains scrub. Box P is positioned in the middle. Two boxes are placed between P and Q which contains a cup. Origami is placed equidistant to both umbrella and plate. S and T have even number of boxes between them. O does not contain can. T does not contain Origami.

How many boxes are there between T and Q, and which box has can in it?

1. 3, P
2. 4, Q
3. 2, T
4. 3, T
5. 4, O

Que. 34 If all boxes are rearranged in dictionary order from bottom to top, then position of how many boxes remains the same?

1. 1
2. 2
3. 3
4. 4
5. 0

Que. 35 Which box is kept two places above box having uniform?

1. R
2. T
3. U
4. O
5. S

Que. 36 The box having scrub is how many places above box having plate?

1. 4
2. 3
3. 5
4. 1
5. 6

Que. 37 If plate and origami interchange their places, then what does the box four places below box R has now?

1. plate
2. cup
3. uniform
4. origami
5. umbrella

Que. 38 If it is possible to make a meaningful word from the fourth, sixth, seventh and eleventh letter from the word 'ORIENTATION', which of the following will be the last letter of the word? If no such word can be formed mark 'X' as the answer. If more than one word is formed mark 'Y' as the answer.

1. X
2. N
3. E

4. Y

5. T

Testbook Solution Correct Option **- 4**

Que. 39 **Direction:** In the question below are given three statements followed by three conclusions numbered I, II and III. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

All shirts are pants.

No trouser is a shirt.

No shorts is a pant.

Conclusions:

I. No shirt is shorts.

II. No shirt is a trouser.

III. All trousers are shorts.

1. Only I follows

2. Only I & II follow

3. Only III follows

4. Only I & III follow

5. All follow

Testbook Solution Correct Option **- 2**

Que. 40 **Direction:** In the question below are given three statements followed by three conclusions I, II and III. You have to take the given statements to be true even if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

All schools are colleges.

Some universities are institutions.

No school is university.

Conclusions:

I. All colleges are universities is not a possibility.

II. No college is a university is not a possibility.

III. Some institutions are not schools is not a possibility.

1. Only I follows

2. Only II follows

3. Only III follows

4. All follows

5. Only I and III follow

Testbook Solution Correct Option **- 5**

Que. 41

Direction: In the question below are given three statements followed by two conclusions numbered I, II and III .You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements

Only a few red are blue

No blue is black

All black is white

Conclusions

I. All blue are white

II. Some white are red

III. No white are red

1. Only I follows
2. Only II follows
3. Only III follows
4. Either II or III follows
5. None follows

Testbook Solution Correct Option **- 4**

Que. 42 **Direction:** In the question below are given three statements followed by three conclusions numbered I, II and III. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

All Tablets are Syrup

Some Syrup are Pills

Only a few Pills are Vitamins

Conclusions:

I. Some Tablets are Pills

II. Some Pills are not Vitamins

III. No Syrup is Vitamin.

1. Only I follow
2. Only II follow
3. Either II or III follow
4. Only II and III follow
5. None follow

Testbook Solution Correct Option **- 2**

Que. 43 **Directions:** In the question below are given two statements followed by two conclusions I, II. You have to take the given statements to be true even if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

Only a few A are B.

Some B are C.

Only a few C are D

Conclusions:

I.All A can be B is a possibility

II.All D can be C is a possibility.

1. Only I follows

2. Only II follows

3. Both I and II follow

4. Either I or II follow

5. None follow

Testbook Solution Correct Option - **2**

Que. 44 **Directions:** Read the following information carefully and answer the questions that follow.

Eight persons Jiya, Piya, Yash, Darpan, Dev, Shiv, Pihu, Darsh and Yash were born in different Years – 1980, 1983, 1985, 1988, 1991, 1996, 1998 and 2001 but not necessarily in the same order. The present ages calculated based on the year 2021.

Four persons born between Piya and Shiv and Neither of them born in 1980 nor in 2001. One person born between Shiv and Yash. Two years gap between Piya and Darpan. Total number of persons born before Darpan is less than the the total number of persons born after Darpan. Two persons born between Darpan and Pihu. Number of persons born before Dev is same as Number of persons born after Darsh. Jiya born after Dev.

What is the age of Yash?

1. 41

2. 38

3. 33

4. 36

5. 30

Testbook Solution Correct Option - **5**

Que. 45 How many persons born after Darpan?

1. One

2. Two

3. Four

4. Five

5. Three

Testbook Solution Correct Option - **4**

Que. 46 What is the sum of Darpan's age and Yash's age?

1. 59

2. 60

3. 66

4. 63

5. 65

Que. 47 Who born immediate after Jiya?
1. Yash
2. Darpan
3. Darsh
4. Dev
5. Piya

Que. 48 What is the age of Dev?
1. 30
2. 33
3. 41
4. 38
5. 36

Que. 49 **Direction :-** Read the question in statement is given followed by two assumptions numbered I and II. Consider the statement and decide which of the given assumptions are Implicit

Statements:

If an athlete fails in a dope test, he will be banned for some years.

Assumptions:

I. Athlete can be banned.

II. It is possible to find out whether the athlete consumed prohibited drinks or supplements.
1. Only assumption I is implicit
2. Only assumption II is implicit
3. Both assumption I and II is implicit
4. Either assumption I or II is implicit
5. Neither assumption I nor II is implicit

Que. 50 **Directions:** One statement is given, followed by two conclusions, I and II. You have to consider the statement to be true, even if it seems to be at variance from commonly known facts. You are to decide which of the given conclusions be definitely drawn from the given statement.

Statement :

Farmers are protesting against the government. They want to repeal 'Farm bill'. At some place there is fight between Police and farmers. All the citizens are facing lot of trouble.

Conclusion :

I) There is no need of 'Farm bill'.

II) Government imposes lot of extra burden on farmers.
1. Only I follows.
2. Only II follows

3. Either I or II follows
4. Neither I nor II follows
5. Both I and II are follows

Testbook Solution Correct Option **- 2**

Que. 51 **Directions: In the following question, a sentence is given with four words marked as (A), (B), (C), and (D). These words may or may not be placed in the correct order. Four options with different arrangements of these words have been provided. Mark the option with the correct arrangement as the answer. If no rearrangement is required, mark option (5) as your answer.**

The **challenges(A)** for the differently-abled are tougher, considering the body's **limitations(B)** that these athletes first cope with through **innate(C)** willpower, and then there is the secondary task of overcoming society's **sheer(D)** skepticism.

1. A-B
2. B-C
3. D-C
4. B-D
5. No change required

Testbook Solution Correct Option **- 3**

Que. 52 **Directions: In the following question, a sentence is given with four words marked as (A), (B), (C), and (D). These words may or may not be placed in the correct order. Four options with different arrangements of these words have been provided. Mark the option with the correct arrangement as the answer. If no rearrangement is required, mark option (5) as your answer.**

There is **down(A)** a need to talk things up when the chips are **surely(B)**, but ultimately only **facts(C)** and figures can **invest(D)** words with meaning.

1. B-A
2. C-D
3. B-C
4. A-D
5. No change required

Testbook Solution Correct Option **- 1**

Que. 53 **Directions: In the following question, a sentence is given with four words marked as (A), (B), (C), and (D). These words may or may not be placed in the correct order. Four options with different arrangements of these words have been provided. Mark the option with the correct arrangement as the answer. If no rearrangement is required, mark option (5) as your answer.**

The U.S. has a rich history of shaping or **toppling(A)** foreign governments and **seeking(B)** to influence forces made **abroad(C)** that had an **impact(D)** on American shores.

1. A-B
2. B-C
3. C-D
4. A-D
5. No change required

Testbook Solution Correct Option **- 5**

Que. 54 **Directions: In the following question, a sentence is given with four words marked as (A), (B), (C), and (D). These words may or may not be placed in the correct order. Four options with different arrangements of these words have been provided. Mark the option with the correct arrangement as the answer. If no rearrangement is required, mark option (5) as your answer.**

India has a **recycled(A)** annual volume of **plastic(B)** waste, of which only **about(C)** 60% is **staggering(D).**

1. D-A
2. A-B
3. B-C
4. C-D
5. No change required.

Testbook Solution Correct Option - **1**

Que. 55 **Directions: In the following question, a sentence is given with four words marked as (A), (B), (C), and (D). These words may or may not be placed in the correct order. Four options with different arrangements of these words have been provided. Mark the option with the correct arrangement as the answer. If no rearrangement is required, mark option (5) as your answer.**

Private companies must be more **standards(A)** in enforcing their guidelines and **reassure(B)** users that their **transparent(C)** for those in power and those in the Opposition are **one (D).**

1. C-D
2. B-C
3. C-A
4. B-A
5. No change required.

Testbook Solution Correct Option - **3**

Que. 56 **Directions: In the following question, one part of the sentence may have an error. Find out which part of the sentence has an error and click the button corresponding to it. If the sentence is free from error, click the "No error" option.**

It is time the Court recognize(A)/ that the electoral bonds scheme,(B)/ by its very nature, undermines(C)/ the voters' right to know.(D)/ No error(E)

1. A
2. B
3. C
4. D
5. No error

Testbook Solution Correct Option - **1**

Que. 57 **Directions: In the following question, one part of the sentence may have an error. Find out which part of the sentence has an error and click the button corresponding to it. If the sentence is free from error, click the "No error" option.**

Climate Change in Glasgow, scheduled later this (A)/ year, is to come down with a domestic climate (B)/ plan that explains to the citizen how it will bring (C)/ green development in this decade, specifying a target by sector for each year. (D)/ No error /(E)

5. C

Testbook Solution Correct Option - **4**

Que. 86 **Directions (1-15): Read the following passage carefully and answer the questions given below.**

Nidhi Passi, 21, a Mumbai-based fitness professional, had to shift to Mumbai on a rather **impromptu** notice to take up her new gig in the city. "I am currently living in a temporary accommodation and have to conduct fitness sessions the entire day. I am out most of the time and I eat out as I do not have any other arrangement," said Passi. While her daily average eating out cost is around ₹300, her monthly expenditure is about 66% of her salary, including other outings with her friends on special occasions. "I am not paying rent now so I find the cost manageable. Once I move into a permanent accommodation, I'll look for cost-friendly options like a mess," said Passi. However, currently eating out is not always a necessity but also a means of luxury or a means to get a break from a work-packed week. "It's not like I don't get to save at all but this situation is temporary and it's only a matter of time before my finances get sorted," she added.

"I go out almost three times a week and it is mostly because I have to meet a friend or there is an official get together." Diksha Kathayat, 23, brand services manager added.

The **phenomenon** is not just in Mumbai. Bengaluru-based Samridhi Kaur, 25, a senior executive in a private firm, eats out during weekends to take a break from a long work week. "I end up spending 8% of my monthly salary on eating out during weekends," said Kaur. She has taken paid subscription of a mobile food application and uses it regularly. "It's not like I end up going out more or spending extra. Both the food and alcohol options are economically viable so even in the two outings I do in a week, the cost comes down by a good amount," Kaur said.

Earlier, eating out was just a weekend trend but with millennials increasingly moving to metro cities for their professional life away from their homes, the _____ is increasing. "More than a necessity they consider it as an experience. With this kind of mindset, it becomes difficult to argue with someone on their lifestyle," said Dilshad Billimoria, director, Dilzer Consultants Private Ltd.

Kaur is not alone as more and more millennials are resorting to eating out only as a means to catch up with friends. Mumbai-based Diksha Kathayat, 23, a brand services manager, ventures out to eat in restaurants only during weekends. "I go out almost three times a week and it is mostly because I have to meet a friend or there is an official get together. It's a leisurely expenditure as for my daily needs I bank on a mess, which is economical," she said. Kathayat ends up spending 16% of her monthly salary on eating out but much lesser on her daily needs. "This amount does get a bit dearer to me by the end of the month but then there is no option. At the end of a hectic week, meeting my friends becomes a necessity and meeting outside is the only possibility." However, she still makes way for savings. "My expenditure on eating out is a little **above the line** according to my personal finance needs. But this is an expenditure I cannot avoid. Hence I am cutting down on other things so I can have more funds to save for my future."

This has been a trend across the country as well. According to a study by RedSeer Consulting, millennials spend at least ₹2,500 a month on eating out. The study was conducted between January and March 2018 in more than 10 cities and over 1,000 respondents were surveyed.

Eating out regularly has now become a means of luxury irrespective of the fact that it may corrode future savings. "Around 20% of my clients are millennials and a lot of them spend as high as 30% of their monthly take-home salary just on eating out. **Ideally**, the percentage should be restricted to 4-5%, considering eating out is not the only thing they need to spend on," said Rachit Chawla, founder, and chief executive officer, Finway, a Delhi-based financial advisory firm.

Millennials weigh out the cost of this expenditure. **"It is also difficult to ask them to curb costs when they start afresh in their professional lives (A) / and eating out expense including other factors like online shopping, streaming services and entertainment costs (B) / can extort a good portion of their salary (C) / and the number can go up as much as 60% of their pay. (D)** They may be able to save less than 15% of their pay," said Billimoria. At the beginning of your career, it is still acceptable to spend more on eating out. However, in the following years, you should try to raise your savings. "If they are able to save even ₹5,000 a month and increase it gradually, owing to the power of compounding they can accumulate close to ₹3.5 crore in 25 years," Chawla added.

There is no harm in treating yourself to a good lunch or dinner. However, it should not come at the cost of your other needs. Hence, plan your expenses while keeping an eye on your investments.

What is the tone of the passage?
1. Analytical
2. Factual
3. Satirical
4. Gloomy
5. Both 1 and 2.

Testbook Solution Correct Option - **5**

Que. 87 Which of the following is FALSE according to the passage?
1. Millennials spend at least Rs 2500 a month on eating out.
2. Millennials consider eating out to be an experience.
3. If millennials save Rs 5000 a month they will be able to accumulate close to Rs 3.5 crores in 25 years.
4. Millenials resort to eating out as a means to catch up with friends.
5. All are False.

Testbook Solution Correct Option - **3**

Que. 88 Which of the following will be an appropriate title for the passage?
1. Eating out trends in metro cities
2. Eating out by Millennials
3. The changing perceptions of eating out

2. 1 : 2
3. 3 : 2
4. 1 : 1
5. None of these

Testbook Solution   Correct Option **- 2**

Que. 108   In a conclave 32% are doctors, 54% are architects and there are 1960 accountants. Calculate how many architects are there in conclave? (Assume only these 3 types of professionals are present in the concalve)

1. 7650
2. 6560
3. 7460
4. 7560
5. None of these.

Testbook Solution   Correct Option **- 4**

Que. 109   A goat is tied to a peg at one corner of a square-shaped grass field by a 14 cm long rope. Find the area of that portion which can be grazed by the goat.

1. 49 sqr cm
2. 154 sqr cm
3. 126 sqr cm
4. 99 sqr cm
5. None of these

Testbook Solution   Correct Option **- 2**

Que. 110   A, B, and C together earn Rs. 6000 per day, A and C together earn Rs. 3760 and B and C together earn Rs. 3040. What is the daily earning of C?

1. Rs. 1000
2. Rs. 850
3. Rs. 1650
4. Rs. 400
5. None of the above

Testbook Solution   Correct Option **- 5**

Que. 111   **Direction:** The following graph shows vote distribution in a village where 5 candidates stood for election**.** Population of the village is 1,20,000.

votes

A 25% **B** 30% **C** 15% **D** 12% **E** 18%

What is ratio of votes received by candidate C to that received by candidate E?

1. 1 : 4
2. 5 : 6
3. 6 : 5
4. 3 : 7
5. 2 : 5

Testbook Solution Correct Option **- 2**

Que. 112 Find the average of votes received by candidates B, D and E?

1. 24000
2. 22000
3. 25000
4. 12800
5. 26000

Testbook Solution Correct Option **- 1**

Que. 113 If voters that voted for candidate C has a ratio of male and female 7 : 2, find the number of females who voted for C.

1. 3000
2. 5000
3. 6000
4. 4000
5. 8000

Testbook Solution Correct Option **- 4**

Que. 114 What is the difference between votes received by candidates A, B and C together to that of D and E together?

1. 44000

2. 48000

3. 50000

4. 45000

5. 60000

Testbook Solution Correct Option - **2**

| **Que. 115** | Find Candidate A got how much more/less percent votes than Candidate B. |

1. 20%

2. 25%

3. 30%

4. 12.5%

5. 16.67%

Testbook Solution Correct Option - **5**

| **Que. 116** | What approximate value should come in place of the question mark (?) in the following question? |

$(15.72)^2 + 16.69 \times 24.41 - 363.76 \div 27.69 + 29.77 = ?$

1. 671

2. 651

3. 647

4. 581

5. 681

Testbook Solution Correct Option - **5**

| **Que. 117** | What approximate will come in the place of the question mark '?' in the following question? |

$\{\sqrt{(784.02)} - 18.96\} \div 2.95 = ? \div 42.04$

1. 105

2. 145

3. 126

4. 180

5. 200

Testbook Solution Correct Option - **3**

| **Que. 118** | What approximate will come in the place of the question mark '?' in the following question? |

$(544.87 \div 5.05 + 199.89 \div 4.01) \div ? = 52.97$

1. 4

2. 10

3. 3

4. 5

5. 6

Testbook Solution Correct Option - **3**

Que. 119 What approximate value will come in the place of the question mark '?' in the following question?

$\sqrt{224.99} \div \sqrt{25.02} + 63 \div (9 \times (7/3)) = ?$

1. 9
2. 8
3. 7
4. 6
5. None of the above

Testbook Solution Correct Option **- 4**

Que. 120 What approximate will come in the place of the question mark '?' in the following question?
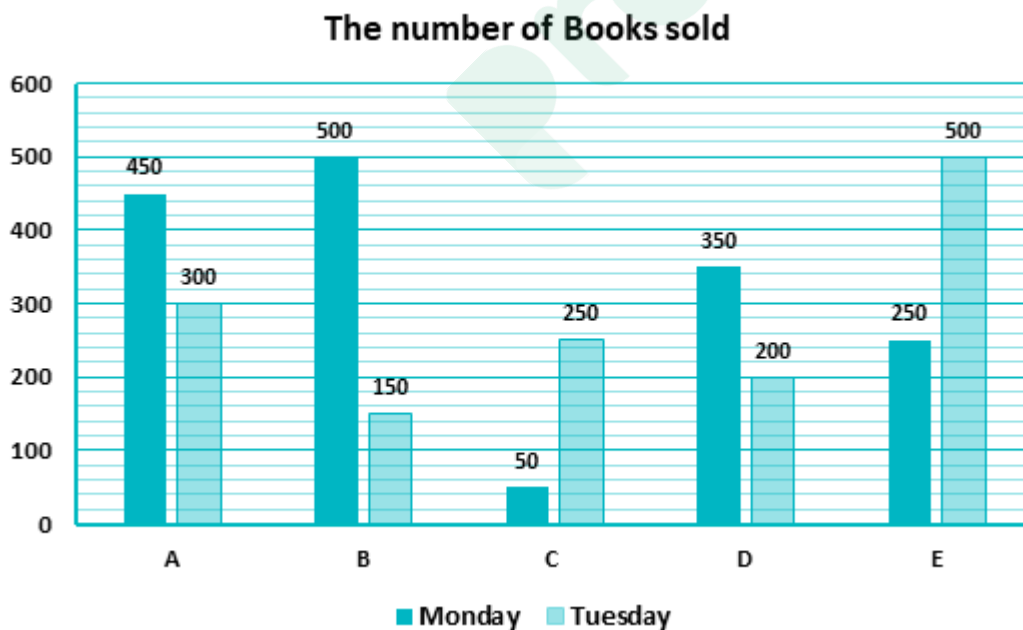

$89.92 + (279.89/3.98) - 151.92 = ?^3$

1. 10
2. 4
3. 2
4. 5
5. 8

Testbook Solution Correct Option **- 3**

Que. 121 **Direction:** Study the graph carefully and answer the following question.

The given show the number of books sold by the different store (A, B, C, D and E) on Monday and Tuesday.

The number of Books sold

If the number of books sold by store F on Monday is the average number of the books sold by store C and E on Monday while the number of books sold by store F on Tuesday is 30 more than the number of books sold by store B on Tuesday. Find the total number of books sold by store F.

1. 350
2. 320
3. 330

4.   300

5.   310

Testbook Solution   Correct Option - **3**

Que. 122   Find the average of total number of books sold by store A and D on both days.

1.   600

2.   650

3.   620

4.   580

5.   610

Testbook Solution   Correct Option - **2**

Que. 123   Find the difference between the sum of the books sold by A, C and E on Monday and the sum of books sold by B and D on Tuesday.

1.   450

2.   425

3.   400

4.   500

5.   415

Testbook Solution   Correct Option - **3**

Que. 124   What percent the number of books sold by C on Monday is less than that on Tuesday?

1.   400%

2.   80%

3.   200%

4.   150%

5.   250%

Testbook Solution   Correct Option - **2**

Que. 125   Find the ratio of the sum of books sold on Monday to the sum of books sold on Tuesday by all store.

1.   7 : 5

2.   8 : 5

3.   8 : 7

4.   5 : 8

5.   9 : 7

Testbook Solution   Correct Option - **3**

Que. 126   A can type 100 letters in 5 minutes. B and C typing together can type 50 letters in 2 minutes. If all of them are working together then they can type 90 letters in how many minutes?

1.   4 minutes

2.   3 minutes

3.   2 minutes

4. 5 minutes

5. None of these

Testbook Solution Correct Option **- 3**

Que. 127 The distance between P and Q is 180 km. Car A start moving from P to Q at a speed of 36 km/hr and Car B start moving from Q to P at a speed of 24 km/hr. In what time, car A will cross car B?

1. 3.5 hours

2. 3 hours

3. 2 hours

4. 4 hours

5. 5 hours

Testbook Solution Correct Option **- 2**

Que. 128 A shop is closed on Sunday. The average sales per day for remaining six days is Rs. 8240 and the average sales from Monday to Friday is 9000. The sales on Saturday is?

1. Rs. 4420

2. Rs. 4440

3. Rs. 4240

4. Rs. 4140

5. Rs. 5040

Testbook Solution Correct Option **- 2**

Que. 129 The profit earned after selling a T-shirt for Rs. 575 is the same as loss incurred after selling the same T-shirt for Rs. 295. What is the cost price of the T-shirt?

1. Rs. 425

2. Rs. 445

3. Rs. 430

4. Rs. 450

5. None of these

Testbook Solution Correct Option **- 5**

Que. 130 Age of Aman's Sister and Aman are in ratio 5 : 7. If Age of Aman and his father is in ratio 1 : 2 and age of his father 3 years hence is 45. Find the Age of Aman's sister.

1. 15 years

2. 18 years

3. 20 years

4. 22 years

5. 10 years

Testbook Solution Correct Option **- 1**

Que. 131 **Direction:** Read the data carefully and answer the questions given below.

A college has 1000 students. Ratio of male lecturers and female lectures is 2 : 3. Total number of lecturers in the college is (1/10)th of the total number of students. Number of lecturers present in college on Monday is 20 more than the number of male lecturers. Number of students present in a college on Monday is 10 times the number of female lecturers.

What is the ratio of the total number of students present on Monday to the total number of lecturers present on Monday?

1. 13 : 17
2. 10 : 1
3. 4 : 5
4. 6 : 7
5. 1 : 9

Testbook Solution Correct Option - **2**

| **Que. 132** | If 20% of the lecturers working in a college are going to retire next month, then what is the number of lecturers left? |

1. 80
2. 70
3. 50
4. 20
5. 30

Testbook Solution Correct Option - **1**

| **Que. 133** | The number of students not present on Monday is what per cent of the total number of students? |

1. 20%
2. 30%
3. 40%
4. 70%
5. 10%

Testbook Solution Correct Option - **3**

| **Que. 134** | What is the difference between the total numbers of students not present on Monday to the total number of lecturer not present on Monday? |

1. 240
2. 360
3. 100
4. 180
5. 350

Testbook Solution Correct Option - **2**

| **Que. 135** | If the number of students increased to 1500, then what is the increase in the number of female lecturers. |

1. 10
2. 40

3. 50
4. 70
5. 30

Testbook Solution Correct Option - **5**

Que. 136 **Direction - Study the table and gives answer the following Question carefully**

In the table shows Number of bikes sold by different companies over the years

Number of Different Types of bikes Sold by a Company Over the Years (Numbers in Thousands)

Company/year	2011	2012	2013	2014	2015
A	56	24	65	53	32
B	67	85	92	45	36
C	66	34	56	23	17
D	78	95	13	43	38
E	44	91	31	86	57

Find average sale of bikes of all the companies in year 2014.
1. 50
2. 60
3. 70
4. 80
5. None of these

Testbook Solution Correct Option - **1**

Que. 137 What is the difference between total sale of company D and company E over the years.
1. 42
2. 75
3. 45
4. 64
5. None of these

Testbook Solution Correct Option - **1**

Que. 138 Find the average sale of company B over the years is:
1. 60
2. 65
3. 55
4. 75
5. None of these

Testbook Solution Correct Option - **2**

Que. 139 Find the ratio of sale in the year 2012 to the sale in year 2015

1. 329 : 180
2. 180 : 329
3. 56 : 79
4. 79 : 56
5. None of these

Testbook Solution Correct Option **- 1**

Que. 140 Percentage sale of which company is more in the year 2013?

1. Company B
2. Company A
3. Company C
4. Company D
5. None of these

Testbook Solution Correct Option **- 1**

Que. 141 The radius of a circle is 14 cm and the ratio of the perimeter of the circle to the perimeter of a rectangle is 22 : 23. If the breadth of the rectangle is 18 cm then find the length of the rectangle.

1. 30 cm
2. 74 cm
3. 28 cm
4. 110 cm
5. None of these

Testbook Solution Correct Option **- 3**

Que. 142 Seats of IT, mechanical and civil in a college are in ratio 4 : 4 : 5. If it is decided to increase the seats by 20%, 50% and 20% respectively in these branches what will be the ratio of increased seats.

1. 4 : 4 : 5
2. 4 : 3 : 7
3. 4 : 5 : 5
4. 5 : 6 : 9
5. 3 : 6 : 7

Testbook Solution Correct Option **- 3**

Que. 143 Alok bought 30 kg of rice at Rs. 8.50 per kg and 20 kg of rice at Rs. 8 per kg. If he has to make a 20% profit, at selling price what rate per kg should he sell the rice?

1. Rs. 9
2. Rs. 12
3. Rs. 8.50
4. Rs. 8
5. Rs. 9.96

Testbook Solution Correct Option **- 5**

Que. 144 A bag contains 5 blue balls, 7 green balls and 8 red balls. Two balls are drawn at random. Find the probability of getting at least one green ball.

1. 13/20
2. 56/95
3. 11/50
4. 2/7
5. 43/56

Testbook Solution Correct Option - **2**

Que. 145 A tank is filled by a pipe in 4 hours. It is observed that due to leakage the tank is filled in $5\frac{1}{3}$ hours. Find the time taken by leakage to drain out all the water of the tank.

1. 12 hours
2. 13 hours
3. 15 hours
4. 16 hours
5. 18 hours

Testbook Solution Correct Option - **4**

Que. 146 What will come in place of question mark (?) in the following number series?

16, 18, ?, 26, 33, 44

1. 12
2. 23
3. 21
4. 20
5. None of these

Testbook Solution Correct Option - **3**

Que. 147 What should come in place of question mark '?' in the following number series?

1, 3, 15, ?, 945, 10395

1. 75
2. 90
3. 95
4. 105
5. None of these

Testbook Solution Correct Option - **4**

Que. 148 What should come in place of the question mark '?' in the following number series?

2, 5, 11, ?, 47, 95

1. 31
2. 23
3. 21
4. 18

5. 27

Testbook Solution Correct Option **- 2**

Que. 149 What should come in place of question mark (?) in the following number series?

7, 11, 20, 36, 61, ?

1. 81
2. 91
3. 97
4. 100
5. 64

Testbook Solution Correct Option **- 3**

Que. 150 What should come in place of the question mark '?' in the following number series?

20, 10, ?, 20, 80, 640

1. 5
2. 20
3. 10
4. 30
5. None of these

Testbook Solution Correct Option **- 3**
